

## 30 PLUS REASONS TO CHOOSE BETTER ENGINEERING PARTS WASHERS

### **1. BACKED BY A LIFETIME WARRANTY:**

1. Welds are warranted not to crack, fracture or leak
2. Turntable and sealed bearing support assembly are warranted against failure
3. Doors & lids warranted to never jam, sag or twist

**2. ONE YEAR LABOR WARRANTY:** Products will be free from defects in material and workmanship, and further warrants and agrees to promptly replace defective parts during Warranty Period.

**3. ONE YEAR PARTS WARRANTY:** Defective parts are replaced under the Warranty Period.

**4. ROLL-AWAY DOOR:** One of the hallmark features of the Genesis parts washer, which saves floor space

**5. TURNTABLE DRIVE:** Jam-proof, chain driven turntable drive

**6. HIGH VOLUME PUMPS:** The Genesis units have industrial duty centrifugal pumps to generate and maximize spray power. The motors are high efficiency, TEFC rated.

**7. SMALLEST POSSIBLE FOOTPRINT:** Less floor space

**8. CONTROL PANEL:** Includes 30-minute wash timer, 12-hour heat timer, and adjustable thermostat.

**9. MID-SWING MANIFOLD:** Mid-swing manifold can be raised or lowered to accommodate various part heights

**10. SEALED CLEANING CHAMBER:** Subflooring beneath the turntable

prevents parts from falling into the holding tank

**11. ERGONOMIC LOADING:** Ergonomic loading heights allow for easy loading of parts

**12. "C" SPRAY BAR CONFIGURATION:** Stainless steel. Cleaning 360-degrees around. Stainless steel, "V" jet spray nozzles.

**13. LOW WATER SHUT OFF AND FILL:** Prevents damage to heating elements

**14. OIL SKIMMER:** Simply open side valve to remove floating oil built in weir pan.

**15. WATER FILTRATION SYSTEM:** Recirculated solution is filtered to remove large particles and floating oil.

**16. TANK ACCESS:** Accessible both front and back.

**17. TURNTABLE "JOG" ON/OFF SWITCH:** Allows turntable to be rotated for further detailing

**18. AUTOMATIC 24HR/7DAY TIMER:** Automatic timer turns the tank heaters on and off. Allows manual over-ride.

**19. BE CUSTOMER SUPPORT:** Long-term support to make sure our distributors and end users can

purchase and operate with assurance.

**20. USER FRIENDLY:** Simply load the parts and walk away.

**21. FULLY AUTOMATED:** No more hand cleaning. Saves time, money and allows other revenue producing tasks to be done.

**22. CONSTRUCTION MATERIAL:** Cabinets are durable, and long lasting.

**23. HIGH END COMPONENTRY:** We do not cut corners on componentry.

**24. NO MORE HAZARDOUS SOLVENTS:** Environmentally friendly and proven safe.

**25. BUILT TO MEET UL SAFETY STANDARDS:** Federal electrical standards are met.

**26. POSITIVE DOOR LATCH:** Prevents the door from opening when cycle starts.

**27. BE DETERGENTS:** Provide a whole spectrum of detergents for customer's cleaning needs.

**28. REMOVABLE PARTS TREE:** Allows the operator to hang smaller parts for effective cleaning.

**29. SMALL PARTS BASKET:** Recommend for small parts that could otherwise be blown-out of the standards parts basket.

**30. OPTION READY:** BE machines are designed that options can be installed later.

**31. MARKETED THROUGH BE DISTRIBUTORS:** BE equipment backed by experts to give you a solution for your cleaning needs.
