The BMW Equipment Program Advantage

We Offer:

- **OEM Approved Equipment Tailored to Meet Your Shop's Needs**
- **Experienced Personnel**
Industry-leading field sales organization. Our technical specialists will provide assistance on product selection, application, service and support for "One Stop Shopping" on all service department needs.
- **Customer Service Support**
 - World Class Service
 - Order/Delivery Status
 - Technical Support
- **Equipment and Systems Planning Services**
- **Flexible Payment Options**
 - DES Open Account
 - Financing & Leasing Programs
 - Major Credit Cards: Visa, MasterCard, American Express
 - Check, Money Order
- **A Minimum One Year Parts and Labor Manufacturer's Warranty**
- **Factory Direct Shipments**
- **Installation & Training Assistance**
- **A One Stop Shop—We work for you!**

Serious Lift Capability for Every Service Job

10,000 Two-Post Asymmetric Lift With AV Arms

Rotary's AV Arms allow you to properly lift any vehicle on recommended OEM pickup points. Get more vehicles in the shop and on the lift faster with easy spotting and superior lifting capabilities.

- Easily spot lower profile vehicles with the 3 3/8" minimum adapter height.
- All vehicle arms with increased reach.
- Reach small, specific pick-up points on EVs with enough clearance to remove propulsion batteries.
- High-strength tapered arms for easier and faster positioning of adapters compared to traditional arm designs.
- Front Arm Reach 18 1/2" min., 41" max
- Rear Arm Reach 27 5/8" min., 58 1/4" max.
- Lift comes standard with round adapters, truck adapters and stacking extensions to lift, unibody, frame and EV.

39-SPOA10N20M0BK

NADA \$7,540.00

Regular Price \$8,146.00

Approved by BMW for use on EV vehicles.

Smart Lift with Trio Arms

10,000 lb. capacity, wide drive-through in-ground lift with rubber adapters.

- Proven environmentally-friendly design with over 47,000 units in operation and a 13-year track record.
- Completely enclosed in polymer composite housing, protecting the environment from the lift and the lift from the environment.
- Operates on only 19 quarts of fluid.
- Patented EasyAccess cylinder design reduces repair time by 75%.

39-SL210N10G0BK

NADA

\$11,775.00

Regular Price \$12,986.00

In-Ground Smart Lift (39-SL210-RA, 39-SL210-TA, 39-SL210I-RA or 39-SL210I-TA) cannot be used for Battery Electric Vehicle high-voltage battery removal.

10,000 lb. Wide Inground Smart Lift With AV Arms

Comes with interchangeable adapter options — right out of the box. 10% greater arm sweep and 15% lower adapter height than any other inground in the market.

39-SLW210IN20M0BL

NADA \$18,990.00

Regular Price \$20,943.00

Approved by BMW for use on EV vehicles.

Tool Storage Organization and More

Parts Room Relocation Package

- Relocate Inventory ALL while keeping it organized and accessible.
- Fully controlled and secure from end to end.
- Keeping you operational throughout the move, eliminating disruptions to your operations.
- Typical parts room inventory moved can occur over a weekend allowing for opening at new location Monday morning.
- Provision of all necessary equipment and labor to achieve the unachievable.
- Coordination and management of your project to overcome the unexpected tasks with relocation.

Tire, Wheel and AC Service

B1200P Automated Wheel Balancer

The B1200P wheel balancer with diagnostic functions for car dealerships with high tire service volume. With touchscreen monitor and automatic non-contact data entry. Unbalance measurement and run-out diagnosis are performed in a single fast measuring run.

Features:

- Touchscreen with advanced user interface.
- easyWEIGHT – Pinpoint laser accurately.
- Automatic Inputs – Optical scanners automatically measure the wheel.
- Automatic balance measurement.
- Automatic behind the spoke weight placement.
- Patented automatic power clamp.
- LED wheel lighting.
- Stop-in-Position feature where the operator only has to touch the amount of unbalance on the screen and the wheel is automatically indexed to correction position.
- Collets.

Air Conditioning Service and Accessories

Tracer Gas Leak Detector Service Kit

The Robinair Tracer Gas service kit gives technicians the tools necessary to use tracer gas in place of refrigerant to find A/C system leaks. The LD9-TGKIT includes a hydrogen gas leak detector with sensor technology designed to detect a 5% hydrogen/95% nitrogen tracer gas mixture. The detector's full color liquid crystal display (LCD) and sweep mode function convey messages, graphics, and prompts to help technicians locate the source of a leak and ensure that the leak detector is always at optimal performance. A patented 3 LED inspection light aids in locating and inspecting suspected leak sources.

BMW Equipment Program

Efficiency is Everything

Expert service equipment and systems planning will optimize the flow of people, equipment and vehicles—at no extra cost to you!

Four Proven Steps:

1 Equipment & Systems Needs Consultation Assessment

Key project document detailing contact information, target launch/phase dates, building requirements and recommended shop equipment to enhance fixed operations.

2 Detailed CAD Drawing

Includes detailed equipment and systems layout in service area as well as a lighting plan with photometric data.

3 Comprehensive Specifications & Budget

Includes detailed specifications for all major equipment called out in the Needs Assessment. Also includes a preliminary equipment and systems budget.

4 Project Coordination & Support

Single point of contact for service equipment and installation.

Most architects and contractors don't understand the needs of a service facility—we do!

Equipment and Systems Planning team members know service areas need to be set up to provide an optimal flow of people, equipment and vehicles into and out of the area. Because of our close partnership with the OEM, we know the BMW-approved equipment – where to place it for the best usage and work flow throughout the shop and how to get it installed.

Our experts will ensure your facility:

- ▶ Accommodates Future Vehicles
- ▶ Provides Layout Efficiency
- ▶ Maximizes Shop Throughput
- ▶ Meets OEM Design Criteria

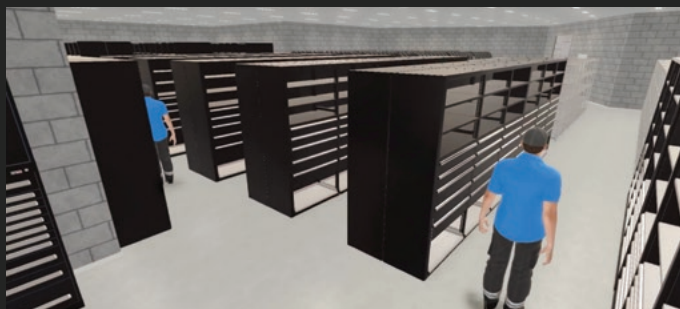

BMW Equipment Program

Visualize your Service Department in 3D!

- ▶ Explore your shop design in beautiful real-time 3D prior to construction. Take a walk in the repair shop and see exactly how it will look in real life (via online web conference).
- ▶ Verify equipment color(s) suit your needs prior to purchase.
- ▶ Validate all selected equipment will fit and function properly within the Service Area without interference with the building infrastructure/mechanical systems.
- ▶ Realistic images allow comparison of key product selections, in-ground versus above ground lifts/exhaust systems, tool boxes and workbenches.
