Tire and Wheel Service

B1200P Automated Wheel Balancer

The B1200P wheel balancer with diagnostic functions for car dealerships with high tire service volume. With touchscreen monitor and automatic non-contact data entry. Unbalance measurement and run-out diagnosis are performed in a single fast measuring run.

Features:

- Touchscreen with Advanced User Interface.
- easyWEIGHT – Pinpoint laser accurately.
- Automatic Inputs – Optical scanners automatically measure the wheel.
- Automatic Balance Measurement.
- Automatic Behind the Spoke Weight Placement.
- Patented Automatic Power Clamp.
- LED Wheel Lighting.
- Stop-in-Position feature where the operator only has to touch the amount of unbalance on the screen and the wheel is automatically indexed to correction position.
- Collets

119-EEWB567AUB

\$12,725.00

Regular Price \$19,344.00

T7800 All-In-One Tire Changer

The John Bean T7800 is a leverless tire changer featuring a unique collection of tools, including intuitive control panel, powerMONT™, lower bead camera viewer, on-floor bead breaker and quickLOK™ technology. It was engineered with superior functionalities that require less effort for technicians to operate and an advanced set of tools that only touch the tire, never the rim, minimizing the risk of damage when working with standard, UHP and run-flat tires.

Vehicle Lifts

10,000 lb. Two-Post Asymmetric Surface-Mounted Lift with Trio Arms and Round Rubber Adapters

39-SPOA10-RA-TRIO
\$6,665.00
Regular Price \$7,265.00

- 10,000 lb. lifting capacity.
- Round rubber adapters with vertical adjustment, ideal for lifting vehicles of unibody construction.
- Asymmetric lift design, featuring factory-rotated columns to maximize door-opening clearance for passenger cars.
- TRIO arm design, has maximum reach and retraction to handle a broader range of vehicles.
- Rotary designed and built power units instead of using third party power units for universal applications.
- High-pressure, full-stroke cylinders in both columns.
- Multi-position column locks engage every 4 inches.
- Original "Double S" single-piece column design maximizes column strength.
- Slider bearings of Tivar 1000 polyethylene are self-lubricating and maintenance free.
- Arm restraints make positioning of arms easy. They engage when lift is raised and automatically disengage when lift is fully lowered.
- Overhead cables allow for a clear-floor design and ensure proper equalization of carriage.
- Overhead padded switch prevents damage to vehicle by raising it too high.

Also Available:

39-SPOA10

 4-ton jack stands
\$139.00
 Regular Price \$158.00

Leak Detection, Thermometer and A/C Accessories

Tracer Gas Leak Detector Service Kit

The Robinair Tracer Gas service kit gives technicians the tools necessary to use tracer gas in place of refrigerant to find A/C system leaks. The LD9-TGKIT includes a hydrogen gas leak detector with sensor technology designed to detect a 5% hydrogen/95% nitrogen tracer gas mixture. The detector's full color liquid crystal display (LCD) and sweep mode function convey messages, graphics, and prompts to help technicians locate the source of a leak and ensure that the leak detector is always at optimal performance. A patented 3 LED inspection light aids in locating and inspecting suspected leak sources.

42-LD9-TGKIT
\$825.00
 Regular Price \$881.00

Simply the most advanced re-flash power supply charger, adjustable from 12.1V to 14.9V up to 90 Amps continues for re-flash power even on the vehicle with very high draws during re-flash programing. Also Showroom Support Mode to support or demo electronics in showrooms or at events.

As a charger it's safe for all battery types including AGM, EFB, lithium-ion, gel-cell, and conventional sealed lead acid. Adjustable to meet all factory specs by battery type. Polarity and overcharge protected. 8.4' DC leads with optional 16.5' leads (part number 110-900169) available for re-flashing while vehicle is on hoist.

110-ESS6100
\$1,299.00
 Regular Price \$1,553.00

KwikStart Pro-HD

New patented design with 12V, 22Ar AGM battery provides up to 1700 peak amp/360 CCA of vehicle starting power. 84" DC boost leads.

110-KS401
\$379.00
 Regular Price \$456.00

Collision Repair and Fast Chargers

Vision2 X3 Electronic Measuring Package

Car-O-Liner Vision2 X3 is an electronic measuring software that guides you through the entire repair process. It provides automatic centering, measuring and documentation. Vision2 is easy to use. You are able to measure damaged vehicles 20% faster than previous Vision software. 3-D graphics with photos makes it easier to identify correct measuring points. Automatically updates Car-O-Data; the world's largest vehicle database with measurements for over 18,000 vehicles. The Vision2 X3 package includes the following components: Car-O-Tronic measuring slide, battery charger, measuring parts, Car-O-Data DVD, Vision2 X3 software and PC cabinet which holds the measuring slide when not in use. Measuring Bridge is not included. Select one of three lengths: 4 meter, 5 meter or 6 meter based on length of frame alignment rack.

Efficiency is Everything

Expert service equipment and systems planning will optimize the flow of people, equipment and vehicles—at no extra cost to you!

Four Proven Steps:

1 Equipment & Systems Needs Consultation Assessment

Key project document detailing contact information, target launch/phase dates, building requirements and recommended shop equipment to enhance fixed operations.

2 Detailed CAD Drawing

Includes detailed equipment and systems layout in service area as well as a lighting plan with photometric data.

3 Comprehensive Specifications & Budget

Includes detailed specifications for all major equipment called out in the Needs Assessment. Also includes a preliminary equipment and systems budget.

4 Project Coordination & Support

Single point of contact for service equipment and installation.

Most architects and contractors don't understand the needs of a service facility—we do!

Equipment and Systems Planning team members know service areas need to be set up to provide an optimal flow of people, equipment and vehicles into and out of the area. Because of our close partnership with the OEM, we know the BMW-approved equipment – where to place it for the best usage and work flow throughout the shop and how to get it installed.

Our experts will ensure your facility:

- ▶ Accommodates Future Vehicles
- ▶ Provides Layout Efficiency
- ▶ Maximizes Shop Throughput
- ▶ Meets OEM Design Criteria

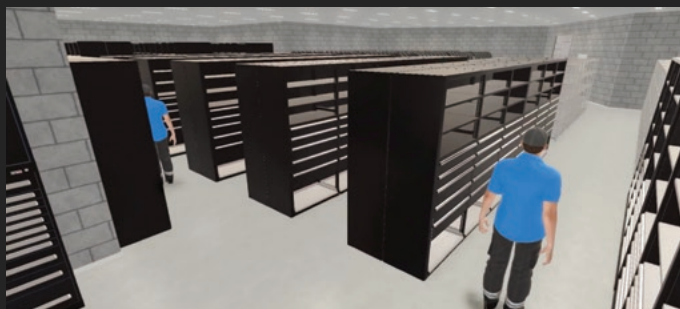

Equipment Program

Call today to speak with an Equipment & Systems Planning Specialist! 1.888.222.7997

Visualize your Service Department in 3D!

- ▶ Explore your shop design in beautiful real-time 3D prior to construction. Take a walk in the repair shop and see exactly how it will look in real life (via online web conference).
- ▶ Verify equipment color(s) suit your needs prior to purchase.
- ▶ Validate all selected equipment will fit and function properly within the Service Area without interference with the building infrastructure/mechanical systems.
- ▶ Realistic images allow comparison of key product selections, in-ground versus above ground lifts/exhaust systems, tool boxes and workbenches.
