The BMW Equipment Program Advantage

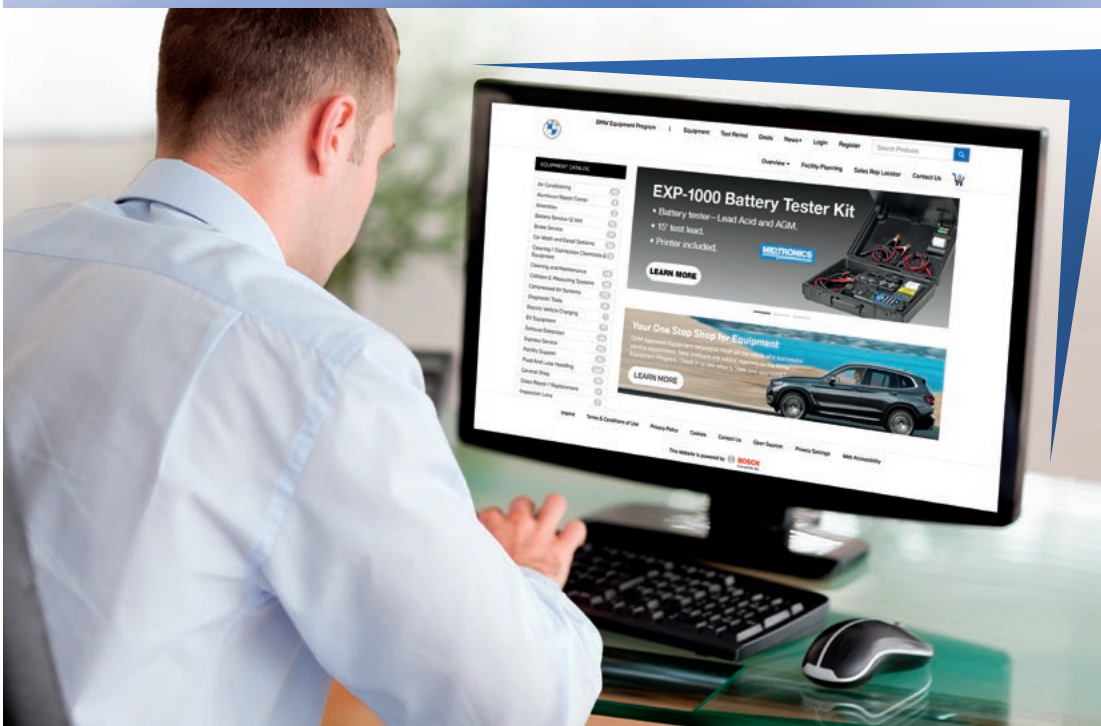

We Offer:

- **OEM Approved Equipment Tailored to Meet Your Shop's Needs**
- **Experienced Personnel**
Industry-leading field sales organization. Our technical specialists will provide assistance on product selection, application, service and support for "One Stop Shopping" on all service department needs.
- **Customer Service Support**
 - World Class Service
 - Order/Delivery Status
 - Technical Support
- **Equipment and Systems Planning Services**
- **Flexible Payment Options**
 - DES Open Account
 - Financing & Leasing Programs
 - Major Credit Cards: Visa, MasterCard, American Express
 - Check, Money Order
- **A Minimum One Year Parts and Labor Manufacturer's Warranty**
- **Factory Direct Shipments**
- **Installation & Training Assistance**
- **A One Stop Shop—We work for you!**

The Complete Source for Your Service Center

Serious Lift Capability for Every Service Job

10,000 lb. Versymmetric® 2-Post Lift

- **Fast and easy vehicle positioning** with Versymmetric® Technology. Lift symmetrically or asymmetrically, all with **one lift**.
- 3-Stage offset front and rear arms allow for easier vehicle positioning.
- Double screw-up pad for a **wider range of lifting**.
- Three settings for width adjustment, from 11 ft. 6.5 in. to 12 ft. 6.5 in.
- Oversized 5 in. diameter pulley and heavy duty 5/16 in. cable reduces stress on the equalization system and increases cable life.
- Standard model fits 12 ft. ceiling height. Additional 2 ft. or 3 ft. extensions available.
- Padded overhead shut-off system prevents vehicle damage.
- Fully gusseted base plate design increases column rigidity.
- Pulley-less jacketed single-point lock release system makes for smoother, easier operation and longer life.

67-CL10V3

\$6,305.00

Regular Price \$6,978.00

Approved by BMW for use on EV vehicles.

10K Wide EV Inground Lift

Hydraulic inground lifts provide an extra-wide drive-through clearance for servicing wide-bodied and electric vehicles. Its design allows for battery-lowering out of electric vehicles and comes standard with True 3-Stage arms and double-telescoping screw pads.

67-EW1020

\$16,210.00

Regular Price \$16,905.00

Approved by BMW for use on EV vehicles.

Serious Lift Capability

10,000 Two-Post Asymmetric Lift With AV Arms

Rotary's AV Arms allow you to properly lift any vehicle on recommended OEM pickup points. Get more vehicles in the shop and on the lift faster with easy spotting and superior lifting capabilities.

- Easily spot lower profile vehicles with the 3 3/8" minimum adapter height.
- All vehicle arms with increased reach.
- Reach small, specific pick-up points on EVs with enough clearance to remove propulsion batteries.
- High-strength tapered arms for easier and faster positioning of adapters compared to traditional arm designs.
- Front Arm Reach 18 1/2" min., 41" max
- Rear Arm Reach 27 5/8" min., 58 1/4 " max.
- Lift comes standard with round adapters, truck adapters and stacking extensions to lift, unibody, frame and EV.

39-SPOA10-AV
\$7,010.00
 Regular Price \$7,482.00

Approved by BMW for use on EV vehicles.

10,000 lb. Wide In-Ground SmartLift With Rubber Adapters

Wide in-ground SmartLift with rubber adapters and compact bench mounted controls. 88" of drive-through clearance.

- 10,000 lb. lifting capacity.
- 88" of drive-thru clearance, ideal for EV battery removals.
- Trio arm configuration with rubber adapters, ideal for pinch-weld or unibody lifting.
- Environmentally responsible with second polymer containment for below-ground components.
- All internal components are serviceable from floor level for quick repairs.
- One-touch controls may be pedestal, bench or wall mounted.
- 71" cylinder stroke at full rise.
- 208/230v electric.
- Rise time is 53 seconds, descent time is 24 seconds.

39-SLW210IN0G0
\$17,595.00
 Regular Price \$18,350.00

10,000 lb. Wide In-Ground Smartlift With Truck Adapters

10,000 lb. in-ground SmartLift in wide setting, 88" drive-thru clearance, bench controls, with truck adapters.

- 10,000 lb. lifting capacity.
- 88" of drive-thru clearance, ideal for EV battery removals.
- Patented TRIO arms with ease of adjustment allowing it to handle a broader range of vehicles.
- Truck adapters ideally suited for lifting vehicles built on a frame.
- Polymer molded containment protects internal components and is environmentally responsible.
- All internal components are serviceable at floor level.

Brake Service and Spot Welder

On Car Lathe – BMW Package

The X15 is the latest innovation in on-vehicle rotor matching. The all-new computer system provides disc tracking, maintenance alerts, and variable speed control. The X15 is the first and only rotor matching system in the world to be driven by a 48v DC motor. Expect smooth operation, tighter run-out tolerances, and superior surface finishes. The 48v DC difference is incredible!

Features:

- Variable speed DC motor.
- Latest advanced electronics platform.
- Performance plus cutting head.
- Patented one-touch Lateral Run Out (LRO) compensation.
- Six-LED on-board work light.
- 2 -year parts and labor warranty.

By matching rotors not only are you increasing your profits, you are saving another rotor from the environment!

We offer no obligation, FREE ON SITE "DEMO" – Save us your toughest brake job and we will do it for FREE!

*Price includes trade-in.

Smart Resistance Spot Welder

Inverter resistance spot welder with Smart-Plus Control. Welder automatically senses steel type and thickness, and sets the welding parameters without the need for operator input.

Features:

- Up to 14,000 Amps of output power at the electrode tips.
- Up to 1,000 lbs. of squeeze force. Up to 1,500 lbs. with optional gun (505-8679TS7).
- Latest Trans-gun design.
- Long reach gun cable length allows for welding while car is still on the jig bench.
- Water cooling all the way to the electrode tips for increased electrode life and weld consistency.
- Balancer supports the weight of the welding gun minimizing operator fatigue.
- Up-gradable software via USB port.
- Weld data print-out for more complete record keeping.

CEBOTECH

Brake Service

2.5 Gallon Electric Brake Bleeder

Features:

- Easy to use, only one person needed for operation.
- Quick change of brake fluid.
- Suitable for all ABS systems (including EDS, ESP and SBC systems) and hydraulic couplings.
- Pulsating liquid flow.
- Automatic low fluid level shut off to prevent air bubbles.
- Instantly depressurizes when switched off.
- Has an adjustable pressure regulator from 0-50 psi.
- Easy to steer around the shop.

801-STBBE2.5GAL

\$1,385.00

Regular Price \$1,571.00

4.0 Gallon Electric Brake Bleeder

Leakage test of the braking system in the low-pressure range. Suitable for all ABS systems (including EDS, ESP and SBC systems) and hydraulic clutches.

Features:

- Easy to use, only one person needed for operation. The brake fluid is hermetically separated from the outside air. A reduction in the boiling point is excluded.
- Automatic low fluid level shut off to prevent air bubbles.
- Instantly depressurizes when switched off.
- Has an adjustable pressure regulator from 0-50 psi.
- Comes with a 10ft pressure hose.
- 4.0 Gallon Canister.
- Easy to steer around the shop.
- Only one person needed for operation.
- Pulsating fluid stream.

Regular Price \$2,000.00

Tire and Wheel Service

B1200P Automated Wheel Balancer

The B1200P wheel balancer with diagnostic functions for car dealerships with high tire service volume. With touchscreen monitor and automatic non-contact data entry. Unbalance measurement and run-out diagnosis are performed in a single fast measuring run.

Features:

- Touchscreen with advanced user interface.
- easyWEIGHT – Pinpoint laser accurately.
- Automatic Inputs – Optical scanners automatically measure the wheel.
- Automatic balance measurement.
- Automatic behind the spoke weight placement.
- Patented automatic power clamp.
- LED wheel lighting.
- Stop-in-Position feature where the operator only has to touch the amount of unbalance on the screen and the wheel is automatically indexed to correction position.
- Collets.

3-Ton Capacity Service Jack

Low-profile, compact design for easy and convenient positioning underneath vehicles. The sleek design can be used on vehicles with minimal ground clearance, ground effects, and low fairings without needing makeshift methods before lifting. Built-in safety overload system prevents use beyond the rated capacity for safer operation. Meets all 5 ASME PASE-2019 safety standards for service jacks.

- Lifting range: 2.95" - 20"
- Saddle: 4" dia., steel crown
- Handle length: 46-1/4" with padded lower section
- Frame height: 6.3"
- Handle length: 46-1/4" with padded lower section
- Floor space: 13.5" x 28.5"
- Casters: 4; 2.4" front fixed (2), 2.4" rear swivel (2)
- Dual pump design provides quick lift with load.
- Limited Lifetime Warranty

16-LDJ3-A
\$270.00
Regular Price \$311.00

3-Ton Jack Stands

These all-new 3-Ton Steel Jack Stands are constructed of a formed and welded high-quality steel base for strength to provide years of safe vehicle holding. Self-locking ratchet handle cannot be released under load and feature a wide range of locking heights and adjusting positions to provide a universal stand for most vehicles.

Sold as a pair.

Also Available:

16-S04
4-ton jack stands
\$135.00
Regular Price \$147.00

16-S03
\$75.00
Regular Price \$92.00

Leak Detection, Thermometer and A/C Accessories

Tracer Gas Leak Detector Service Kit

The Robinair Tracer Gas service kit gives technicians the tools necessary to use tracer gas in place of refrigerant to find A/C system leaks. The LD9-TGKIT includes a hydrogen gas leak detector with sensor technology designed to detect a 5% hydrogen/95% nitrogen tracer gas mixture. The detector's full color liquid crystal display (LCD) and sweep mode function convey messages, graphics, and prompts to help technicians locate the source of a leak and ensure that the leak detector is always at optimal performance. A patented 3 LED inspection light aids in locating and inspecting suspected leak sources.

42-LD9-TGKIT
\$775.00
 Regular Price \$881.00

Premium Refrigerant Leak Detector

- Patented 3 LED UV lights with 395-415 nm wave length is optimum for a/c dye fluorescence.
- Unique color graphic LCD screen.
- User friendly message and error screens.
- High intensity LED inspection light.
- Audio mute function.

Also Available:

42-LD3
 Economy Leak Detector with loud audible alert.
\$255.00
 Regular Price \$321.00

42-LD5
 Select Leak Detector with color graphic display, visual and audible alerts and LED inspection lights.

\$390.00
 Regular Price \$478.00

Digital Thermometer

This digital thermometer gives you full-feature capabilities in a case that is small enough to fit in your shirt pocket. A wide temperature range and highly accurate readings make it useful for a variety of applications.

- Accurate readings from -40° F to 390° F (±2°) and from -40° C to 200° C (±1°).
- Switch selects Celsius or Fahrenheit.
- Sampling time is just one second; HOLD button freezes display for accuracy.
- Easy-to-read display can be read even in direct sunlight.
- Durable case includes a cover to protect the probe.
- Uses one 1.5V battery; includes battery-saver mode.
- Min/Max display for reading temperature ranges.

Air Conditioning Service and Brake Fluid Exchange

ArcticPRO High Performance R1234yf Air Conditioning Service System

The most advanced R1234yf unit on the market today, the ArcticPRO ACX2280 R1234yf Refrigerant Handling Systems offer your shop the ultimate in refrigerant recycling machines. Our newest professional units include a unique service door that is ergonomic in its design and an intuitive, state of the art user interface providing an optimal environment for fully automatic A/C service and simple unit maintenance. iOS and Android capable phone app allows remote service session mirroring and advanced functions.

Features:

- State-of-the-Art. Ergonomic design, 7" capacitive touch screen and intuitive user interface sets a new industry standard.
- Status Indicator. LED light indicates status visible from anywhere in the workshop.
- Best In Class Serviceability New ergonomic hinged service door simplifies unit service.
- Smart. iOS and Android capable phone app allowing remote service session mirroring and advanced functions.
- Automatic Updates. Permanent wireless software updates, ensuring you always have the latest features.
- Oil System Management. Automatic weighing of recovered oil, allowing accurate replenishment of oil removed during service.
- Remote Support for Technicians. Allows MAHLE to connect to a unit over WiFi for troubleshooting and advanced support.

Efficiency is Everything

Expert service equipment and systems planning will optimize the flow of people, equipment and vehicles—at no extra cost to you!

Four Proven Steps:

1 Equipment & Systems Needs Consultation Assessment

Key project document detailing contact information, target launch/phase dates, building requirements and recommended shop equipment to enhance fixed operations.

2 Detailed CAD Drawing

Includes detailed equipment and systems layout in service area as well as a lighting plan with photometric data.

3 Comprehensive Specifications & Budget

Includes detailed specifications for all major equipment called out in the Needs Assessment. Also includes a preliminary equipment and systems budget.

4 Project Coordination & Support

Single point of contact for service equipment and installation.

Most architects and contractors don't understand the needs of a service facility—we do!

Equipment and Systems Planning team members know service areas need to be set up to provide an optimal flow of people, equipment and vehicles into and out of the area. Because of our close partnership with the OEM, we know the BMW-approved equipment – where to place it for the best usage and work flow throughout the shop and how to get it installed.

Our experts will ensure your facility:

- ▶ Accommodates Future Vehicles
- ▶ Provides Layout Efficiency
- ▶ Maximizes Shop Throughput
- ▶ Meets OEM Design Criteria

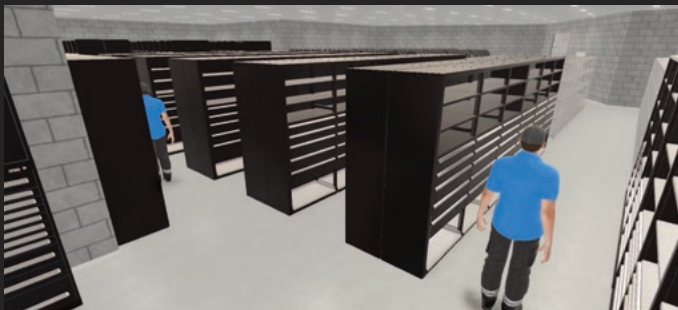

BMW Equipment Program

Call today to speak with an Equipment & Systems Planning Specialist! 1.888.222.7997

Visualize your Service Department in 3D!

- ▶ Explore your shop design in beautiful real-time 3D prior to construction. Take a walk in the repair shop and see exactly how it will look in real life (via online web conference).
- ▶ Verify equipment color(s) suit your needs prior to purchase.
- ▶ Validate all selected equipment will fit and function properly within the Service Area without interference with the building infrastructure/mechanical systems.
- ▶ Realistic images allow comparison of key product selections, in-ground versus above ground lifts/exhaust systems, tool boxes and workbenches.
