The BMW Equipment Program Advantage

We Offer:

- **OEM Approved Equipment Tailored to Meet Your Shop's Needs**
- **Experienced Personnel**
Industry-leading field sales organization. Our technical specialists will provide assistance on product selection, application, service and support for "One Stop Shopping" on all service department needs.
- **Customer Service Support**
 - World Class Service
 - Order/Delivery Status
 - Technical Support
- **Equipment and Systems Planning Services**
- **Flexible Payment Options**
 - DES Open Account
 - Financing & Leasing Programs
 - Major Credit Cards: Visa, MasterCard, American Express
 - Check, Money Order
- **A Minimum One Year Parts and Labor Manufacturer's Warranty**
- **Factory Direct Shipments**
- **Installation & Training Assistance**
- **A One Stop Shop—We work for you!**

The Complete Source for Your Service Center

Personal Protection Equipment

Safety Rescue Hooks

Used for the retrieval of victims of electric shock, safeguarding the life of the rescuer. The hook enables the victim to be pulled clear by gripping the arms, legs, armpits, ankles etc. Required in all live line areas as part of controlling measures following Health & Safety risk assessment.

Features:

- Universally popular rescue hook for the retrieval of victims of electric shock with a voltage rating of 1,000V.
- 1M length keeps rescuer safe from harm.
- Very popular in Electric and Hybrid Vehicle repair and service workshops.
- Dimensions: 25mm dia x 1,000mm.

Serious Lift Capability for Every Service Job

10,000 lb. Two-Post Asymmetric Lift With AV Arms

Rotary's AV Arms allow you to properly lift any vehicle on recommended OEM pickup points. Get more vehicles in the shop and on the lift faster with easy spotting and superior lifting capabilities.

- Easily spot lower profile vehicles with the 3 3/8" minimum adapter height.
- All vehicle arms with increased reach.
- Reach small, specific pick-up points on EVs with enough clearance to remove propulsion batteries.
- High-strength tapered arms for easier and faster positioning of adapters compared to traditional arm designs.
- Front Arm Reach 18 1/2" min., 41" max
- Rear Arm Reach 27 5/8" min., 58 1/4" max.
- Lift comes standard with round adapters, truck adapters and stacking extensions to lift, unibody, frame and EV.

39-SPOA10-AV

\$7,625.00

Regular Price \$8,146.00

Approved by BMW for use on EV vehicles.

Smart Lift Wide 10,000 lb. Inground Lift

Smart Lift Wide lift 10K lbs. Inground Lift with AV arms for all EV and ICE vehicles. LDS with Bench/Wall or Optional Pedestal when ordered with Lift (T110280BK).

- Rotary Smart Lift is now even more versatile.
- Perfect combination for EV's, Low Profile Exotics, Unibody and Light Trucks.
- Lift every type of vehicle on ONE LIFT.
- The industry's best access and clearance with 48% more under car access and 88" of space.
- Comes with interchangeable adapter options – right out of the box.
- 10% greater arm sweep and 15% lower adapter height than any other inground in the market.

39-SLW210-AV

\$19,990.00

Regular Price \$20,943.00

Approved by BMW for use on EV vehicles.

Vehicle Lifts and Exhaust Extraction

10,000 lb. Versymmetric 2-Post Lift, Adjustable Width

- Versymmetric offset front arms provide directSPOT™ to vehicle lift points and safely lifts both symmetrically and asymmetrically within the same service bay, maximizing service capabilities and revenue potential.
- Oversized 5" diameter pulley and heavy duty 5/16" cable reduce stress on equalization system and increase cable life.
- 48" elongated carriage design increases lift life.
- Standard model fits 12 foot ceiling height. Additional 2 foot or 3 foot extensions available.
- Padded overhead shut off system prevents vehicle damage.

67-CL10AV3

\$6,345.00

Regular Price \$6,917.00

10,000 lb. Wide Inground Lift

10,000 lb. hydraulic inground lifts provide an extra-wide drive-through clearance for servicing wide-bodied and electric vehicles. Its design allows for battery-lowering out of electric vehicles and comes standard with True 3-Stage arms and double-telescoping screw pads.

- 3-Stage arms and double-telescoping screw pads.
- 88" Drive Thru Clearance.
- The extra width provides technicians enough clearance to remove/install battery and battery packs easily.

Brake Service and Spot Welder On Car Lathe – BMW Package

The X15 is the latest innovation in on-vehicle rotor matching. The all-new computer system provides disc tracking, maintenance alerts, and variable speed control. The X15 is the first and only rotor matching system in the world to be driven by a 48v DC motor. Expect smooth operation, tighter run-out tolerances, and superior surface finishes. The 48v DC difference is incredible!

Features:

- Variable speed DC motor.
- Latest advanced electronics platform.
- Performance plus cutting head.
- Patented one-touch Lateral Run Out (LRO) compensation.
- Six-LED on-board work light.
- 2 -year parts and labor warranty.

38-X15-2ADPBW
\$15,795.00*

By matching rotors not only are you increasing your profits, you are saving another rotor from the environment!

We offer no obligation, FREE ON SITE "DEMO" – Save us your toughest brake job and we will do it for FREE!

*Price includes trade-in.

GYSPOT PTI Genius

The G9 arm is a C-shaped arm that turns the clamp from a C movement to a X movement. It is designed to be highly ergonomic and easy to use, and allows the use of the AUTO mode of the GYSPOT BPLG which automatically sets the spot weld parameters.

Features:

- Quick set up with no tools required.
- No need to adjust the electrode.
- From G1 to G9 in less than 5 seconds.
- Automatic connection to the cooling system.
- Opening operated by the clamp.
- Integrated arm support (mounted on a trolley or wall).
- In automatic mode, the spot welder equipped with its G9 arm automatically determines the type of steel, the thickness of the sheet and the presence of glue and insulating material between the HLE/THLE, UHLE and boron sheets.
- Welding current: 13,000 A.
- Max. clamping force 550 daN at 8 bars with X1.
- Liquid cooling of electrodes and caps.
- Automatic mode compatible with 3 copper arms (X1, X2 and X6).

Mahle BFX-60 Brake Fluid Exchange Unit

FluidPRO® brake fluid flush systems deliver complete brake fluid exchange using simple processes.

Features:

- Constructed for larger volumes. The brake fluid is removed directly from its 16 gal original container.
- Fitted with the BFX PLUS extraction system.
- Fitted with an infinitely variable pressure suction tube with sieve.
- Suitable for ABS, ESP, EDS and SBC.
- Pulsating fluid flow to pressurize air bubbles out of the braking system.
- Automatic switch-off on empty container.
- Pressure-less decoupling from vehicle.
- Venting of device during container changeover not necessary.
- Adapter available for all established vehicle types.

Tire, Wheel and AC Service

B1200P Automated Wheel Balancer

The B1200P wheel balancer with diagnostic functions for car dealerships with high tire service volume. With touchscreen monitor and automatic non-contact data entry. Unbalance measurement and run-out diagnosis are performed in a single fast measuring run.

Features:

- Touchscreen with advanced user interface.
- easyWEIGHT – Pinpoint laser accurately.
- Automatic Inputs – Optical scanners automatically measure the wheel.
- Automatic balance measurement.
- Automatic behind the spoke weight placement.
- Patented automatic power clamp.
- LED wheel lighting.
- Stop-in-Position feature where the operator only has to touch the amount of unbalance on the screen and the wheel is automatically indexed to correction position.
- Collets.

Air Conditioning Service and Accessories

Tracer Gas Leak Detector Service Kit

The Robinair Tracer Gas service kit gives technicians the tools necessary to use tracer gas in place of refrigerant to find A/C system leaks. The LD9-TGKIT includes a hydrogen gas leak detector with sensor technology designed to detect a 5% hydrogen/95% nitrogen tracer gas mixture. The detector's full color liquid crystal display (LCD) and sweep mode function convey messages, graphics, and prompts to help technicians locate the source of a leak and ensure that the leak detector is always at optimal performance. A patented 3 LED inspection light aids in locating and inspecting suspected leak sources.

Additional Services

Special Tool Organization Services

Provided through Bosch's Engineering Analysis Associates.

Tool Organization System

- The TOS System includes tool boards, accessories, shelves, totes and other items to provide "The Complete Tool Room Solution."
- Organizes required, optional and legacy special tools and includes room for growth.
- Custom designed to fit your facility.
- A typical BMW tool organization project takes just 5 - 6 days to complete.

Looking for support with your tool room layout and planning? Contact your BMW Group Equipment Program field representative today!

Efficiency is Everything

Expert service equipment and systems planning will optimize the flow of people, equipment and vehicles—at no extra cost to you!

Four Proven Steps:

1 Equipment & Systems Needs Consultation Assessment

Key project document detailing contact information, target launch/phase dates, building requirements and recommended shop equipment to enhance fixed operations.

2 Detailed CAD Drawing

Includes detailed equipment and systems layout in service area as well as a lighting plan with photometric data.

3 Comprehensive Specifications & Budget

Includes detailed specifications for all major equipment called out in the Needs Assessment. Also includes a preliminary equipment and systems budget.

4 Project Coordination & Support

Single point of contact for service equipment and installation.

Most architects and contractors don't understand the needs of a service facility—we do!

Equipment and Systems Planning team members know service areas need to be set up to provide an optimal flow of people, equipment and vehicles into and out of the area. Because of our close partnership with the OEM, we know the BMW-approved equipment – where to place it for the best usage and work flow throughout the shop and how to get it installed.

Our experts will ensure your facility:

- ▶ Accommodates Future Vehicles
- ▶ Provides Layout Efficiency
- ▶ Maximizes Shop Throughput
- ▶ Meets OEM Design Criteria

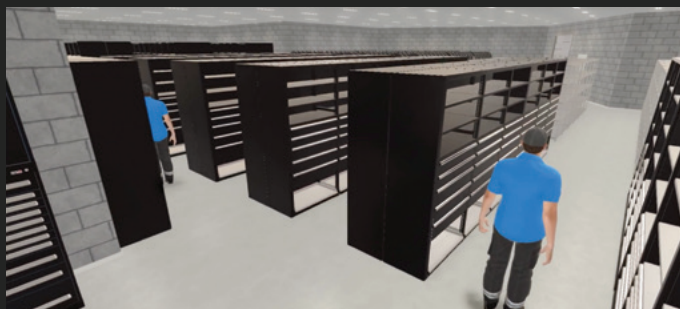

BMW Equipment Program

Call today to speak with an Equipment & Systems Planning Specialist! 1.888.222.7997

Visualize your Service Department in 3D!

- ▶ Explore your shop design in beautiful real-time 3D prior to construction. Take a walk in the repair shop and see exactly how it will look in real life (via online web conference).
- ▶ Verify equipment color(s) suit your needs prior to purchase.
- ▶ Validate all selected equipment will fit and function properly within the Service Area without interference with the building infrastructure/mechanical systems.
- ▶ Realistic images allow comparison of key product selections, in-ground versus above ground lifts/exhaust systems, tool boxes and workbenches.
