V2380 Imaging Wheel Alignment System

Now there's an advanced imaging alignment system that doesn't require lots of training or experience to operate. With the latest XD target and camera system, the V2380 features advanced technology, combined with the simplest, most intuitive software we've ever offered providing the essential tools for any alignment tech. It's the best of both worlds.

Features:

- High resolution cameras produce accurate, live alignment readings and diagnostic data.
- The camera beam automatically follows as the vehicle is raised by tracking the targets.
- Video speed cameras constantly monitor the alignment and provide critical information to get the job done right.
- Our user interface streamlines workflow for enhanced productivity and ensures that alignment repair information is always one click away.
- Touchless AC400 tire clamping system.

V3300 Diagnostic Wheel Alignment System with VIN Scanner

With a new notification system that provides critical information without slowing you down, the V3300 wheel aligner puts every alignment on the fast track. The groundbreaking user interface provides instant access to critical tasks in an intelligent flow, ensuring vehicle-specific assistance is always just one click away.

Features:

- Next Generation UI Optimized for High-Volume User.
- Diagnostic alignment with "Compensate-Warn-Alert" intervention gets it right the first time.
- Unique camera beam design to fit through a standard doorway and protect cameras.
- Highly Accurate and Reliable XD Camera Technology.
- Low profile design, lowers the center of gravity for improved stability when moving.
- VIN Scanner included.
- Power Requirements: 100-240V AC (must have earth ground) 1Ph 50/60Hz UL201, C22.2, CE Approved.
- Shipping Weight: 544 lbs. (246.75 kg)

Two Post and Four Post Lifts

10,000 lb. Two-Post Asymmetric Surface-Mounted Lift with Trio Arms and Round Rubber Adapters

- 10,000 lb. lifting capacity.
- Round rubber adapters with vertical adjustment, ideal for lifting vehicles of unibody construction.
- Asymmetric lift design, featuring factory-rotated columns to maximize door-opening clearance for passenger cars.
- TRIO arm design, has maximum reach and retraction to handle a broader range of vehicles.
- Rotary designed and built power units instead of using third party power units for universal applications.
- High-pressure, full-stroke cylinders in both columns.
- Multi-position column locks engage every 4 inches.
- Original "Double S" single-piece column design maximizes column strength.
- Slider bearings of Tivar 1000 polyethylene are self-lubricating and maintenance free.
- Arm restraints make positioning of arms easy. They engage when lift is raised and automatically disengage when lift is fully lowered.
- Overhead cables allow for a clear-floor design and ensure proper equalization of carriage.
- Overhead padded switch prevents damage to vehicle by raising it too high.

Also Available:

39-SPOA10
Asymmetric Lift with
Flip-Up Adapters
\$6,025.00
Dealer Price \$6,804.00

7,000 lb. Asymmetric Moveable Pad Lift

Asymmetric two-post lift with moveable, drive-over pads. Rotated column design provides maximum vehicle door-opening clearance when properly positioned on lift. Overhead equalization system. Electric/hydraulic operation. Includes four spacers for added clearance, polymer rubber contact surfaces and hinged approach ramps.

- Pad platforms reduces vehicle spotting time versus swing arms.
- Low drive-over clearance of 2-5/8".
- Pad platforms are adjustable for vehicles with different wheel bases.
- Third-party certified to industry standards.
- "Double S" column design provides maximum column durability.
- Rubber spacer blocks included when additional clearance is needed.
- Slider block bearings of Tivar 1000 polyethylene are self-lubricating and maintenance free.
- High-pressure cylinders in each column provide maximum lifting force.
- Arm restraints for easy arm positioning. Stay in place when lifting and disengage at floor.
- Overhead padded switch bar stops lifting when engaged.

Four Post Lift

Cars. SUVs. Trucks. Vans. They can all drive right onto the SM14 and be in the air in no time. The gold standard of four post lifts, the SM14 is engineered with single-piece, non-welded runways to provide maximum long-lasting strength. Its louvered ramps provide improved traction and come with a powder-coated Hammer Tone paint finish for improved durability. And most importantly, the SM14's adjustable latch bars ensure that the runways are level at any of the multiple locking positions.

- Cylinders under the runways protect them from corrosives and physical damage.
- Louvered ramps for improved traction and less floor gouging.
- Polymer rollers protect shop floors and allow for quieter operation.
- Powder-coated Hammer Tone paint finish for longer paint life.
- Adjustable latch bars keep runways level while in locking positions.
- 20" single-piece, non-welded runway with tracks for rolling jacks.
- ALI Gold Certified.

Dealer Price \$477.00

3-Ton Jack Stands

These all-new 3-Ton Steel Jack Stands are constructed of a formed and welded high-quality steel base for strength to provide years of safe vehicle holding. Self-locking ratchet handle cannot be released under load and feature a wide range of locking heights and adjusting positions to provide a universal stand for most vehicles.

Sold as a pair.

Also Available:

16-S04
4-ton jack stands

\$139.00

Dealer Price \$158.00

3-Ton Capacity Service Jack

Flanged upper body edge increases strength to resist twisting. A light, compact design makes this jack easy and convenient to use when positioning under a vehicle and lifting. A built-in safety overload system prevents use beyond the rated capacity for safer operation. Dual Pump Design lifts 800kg (1750 lb.) load to 19 inches in just 3 pumps. Cycle tested design for a long life of professional duty.

- Reach: 63.9"
- Saddle: 4" dia., steel crown
- Lifting range: 5-3/4" to 18-1/2"
- Frame height: 6.3"
- Handle length: 39-1/2"
padded lower handle
- Floor space: 13.4" x 24.5"
- Casters: 4; 3.5" front fixed (2), 2.36" rear swivel (2)
- Limited Lifetime Warranty

5-Ton Capacity Service Jack

An extremely safe and durable long chassis 5-ton floor jack. Built-in safety overload prevents using the jack beyond its rated capacity. A convenient foot pedal speeds the lifting operation. Handle lock and release controls are located on top of the 40" spring-loaded handle. Handle can be locked into any position from vertical to horizontal. Cycle tested design for a long life of professional duty.

- 5-ton capacity
- Lifting range: 6" to 22"
- Saddle: 5-1/8" dia., round
- Reach: 47"
- Frame height: 7.9"
- Floor space: 15" x 56"
- Handle length: 43"
3-position with lock and release controls

- Stand-alone configuration, no separate tablet or computer required.
- Software updates via internet or USB memory stick.
- Two year warranty. Includes parts, service and software updates.
- Cutter shield protects the user during the cut process.

Leak Detection, Digital Thermometer and Air Conditioning Accessories

Tracer Gas Leak Detector Service Kit

The Robinair Tracer Gas service kit gives technicians the tools necessary to use tracer gas in place of refrigerant to find A/C system leaks. The LD9-TGKIT includes a hydrogen gas leak detector with sensor technology designed to detect a 5% hydrogen/95% nitrogen tracer gas mixture. The detector's full color liquid crystal display (LCD) and sweep mode function convey messages, graphics, and prompts to help technicians locate the source of a leak and ensure that the leak detector is always at optimal performance. A patented 3 LED inspection light aids in locating and inspecting suspected leak sources.

42-LD9-TGKIT
\$825.00
Dealer Price \$881.00

\$415.00
Dealer Price \$504.00

Shown with optional 110-12-2416 Bar Code Reader.

Roll-Around KwikStart

Powerful Performance

- On-board starter battery gives more cranking power than any fast charger – up to 1100 Amps cranking power.
- Will accommodate a user supplied Group 31 battery.
- Assists both customers and employees where there is no electrical power.
- Recharges battery up to 20X faster than hand-carried units.
- Solid state circuitry monitors battery condition and maintains maximum state of charge.
- Fully automatic 10 Amp charger recharges starter battery or any on-board 12 Volt battery.
- 12-Volt DC power outlet

Safety

- 500 Amp insulated clamps with patented "Flexi-Spring" cable guards.
- Polarity light warns operators before making a reverse connection.
- On-Off Switch to prevent personal injury.
- Plugs into any AC outlet for rapid automatic recharging.
- Designed for safe handling in any weather.
- Includes convenient clamp bar for easy and safe storage of clamps when not in use.

Optimize the Flow of People, Equipment and Vehicles

Expert service equipment & systems planning—at no cost to you!

Four Proven Steps:

1 Equipment & Systems Needs Consultation Assessment

Key project document detailing contact information, target launch/phase dates, building requirements and recommended shop equipment to enhance fixed operations.

2 Detailed CAD Drawing

Includes detailed equipment and systems layout in service area as well as a lighting plan with photometric data.

3 Comprehensive Specifications & Budget

Includes detailed specifications for all major equipment called out in the Needs Assessment. Also includes a preliminary equipment and systems budget.

4 Project Coordination & Support

Single point of contact for service equipment and installation.

Let us partner with your architects and contractors to meet all of your facility needs.

Equipment and Systems Planning team members know service areas need to be set up to provide an optimal flow of people, equipment and vehicles into and out of the area. Because of our close partnership with the OEM, we know the Hyundai-approved equipment – where to place it for the best usage and work flow throughout the shop and how to get it installed.

Our experts will ensure your facility:

- ▶ Accommodates Future Vehicles
- ▶ Provides Layout Efficiency
- ▶ Maximizes Shop Throughput
- ▶ Meets OEM Design Criteria

Call today to speak with an Equipment & Systems Planning Specialist! 1.866.539.4248

Visualize Your Service Department in 3D!

- ▶ Explore your shop design in beautiful real-time 3D prior to construction. Take a walk in the repair shop and see exactly how it will look in real life (via online web conference).
- ▶ Verify equipment color(s) suit your needs prior to purchase.
- ▶ Validate all selected equipment will fit and function properly within the Service Area without interference with the building infrastructure/mechanical systems.
- ▶ Realistic images allow comparison of key product selections, in-ground versus above ground lifts/exhaust systems, tool boxes and workbenches.
