## 10,000 Two-Post Asymmetric Lift With AV Arms

*Rotary's AV Arms allow you to properly lift any vehicle on recommended OEM pickup points. Get more vehicles in the shop and on the lift faster with easy spotting and superior lifting capabilities.*

- Easily spot lower profile vehicles with the 3 3/8" minimum adapter height.
- All vehicle arms with increased reach.
- Reach small, specific pick-up points on EVs with enough clearance to remove propulsion batteries.
- High-strength tapered arms for easier and faster positioning of adapters compared to traditional arm designs.
- Front Arm Reach 18 1/2" min., 41" max.
- Rear Arm Reach 27 5/8" min., 58 1/4" max.
- Lift comes standard with round adapters, truck adapters and stacking extensions to lift, unibody, frame and EV.

39-SPOA10N20M0BK

**NADA \$7,540.00**

Dealer Price \$8,146.00

## Smart Lift with Trio Arms

*10,000 lb. capacity, wide drive-through in-ground lift with rubber adapters.*

- Proven environmentally-friendly design with over 47,000 units in operation and a 13-year track record.
- Completely enclosed in polymer composite housing, protecting the environment from the lift and the lift from the environment.
- Operates on only 19 quarts of fluid.
- Patented EasyAccess cylinder design reduces repair time by 75%.

39-SL210N10G0BK

## T7800 All-In-One Tire Changer

*The John Bean T7800 is a leverless tire changer featuring a unique collection of tools, including intuitive control panel, powerMONT™, lower bead camera viewer, on-floor bead breaker and quickLOK™ technology. It was engineered with superior functionalities that require less effort for technicians to operate and an advanced set of tools that only touch the tire, never the rim, minimizing the risk of damage when working with standard, UHP and run-flat tires.*

- **quickLOK™** – The fast and effortless automatic wheel clamping with center post design.
- **powerMONT™** – The innovative, fast and easy-to-use leverless mount and demount system.
- **Lower Bead Camera Viewer** – assists technicians during lower bead breaking operation.
- **Dynamic Bead Breaker** prevents wheel damage while enhancing precision and productivity with synchronized dual disks.
- **Top Side Bead Seater** – Ergonomic nozzle injects high-speed air blasts into the tire, raising the bead to seal the tire to the rim.
- **PROspeed™** continuously monitors torque and automatically reduces speed during critical procedures.

- **On-Floor Bead Breaker** with powered handle gives an alternative option for use on soft sidewall and high aspect ratio tires.
- **Pedal Operated Wheel Lift** for easy mounting and dismounting of heavy tire and wheel assemblies and improved ergonomics.

**NADA \$23,865.00**

Dealer Price \$29,489.00

## Mercedes Benz-Specific Aligner Console and Sensors

- The aligner is self-calibrating multiple times a second.
- The cameras automatically track with the vehicle as it is raised to produce the best accuracy and the most productivity a shop can have in a wheel aligner.
- Takes up less space in front of the vehicle.
- Passive targets require no power and are more durable than active components mounted to the wheels.
- MB Quick Clamps ("MB-Schnellspannhalter") are fully supported and no rolling compensation is required. Simply mount the clamps and begin the adjustment process.
- AC700 wheel clamps are also provided standard. These clamps support a short rollback procedure for compensation of the wheel clamp and wheel assembly.
- System provides accurate measurements for all specific Mercedes Benz, Smart and Mercedes-Maybach vehicles. Vehicle specification updates are available through Daimler AG.
- Software with enhanced features and more convenient operation.
- Compatible to asanetwork.
- Car-specific databases with setting aids of the past 25+ years.
- 3D measurement screen with all relevant data & CE conform.
- Finish RAL 7015.

119-EEWA553MB1

**NADA \$31,135.00**

Dealer Price \$32,616.00

## B1200P Automated Wheel Balancer

*The B1200P wheel balancer with diagnostic functions for car dealerships with high tire service volume. With touchscreen monitor and automatic non-contact data entry. Unbalance measurement and run-out diagnosis are performed in a single fast measuring run.*

### Features:

- Touchscreen with Advanced User Interface.
- easyWEIGHT – Pinpoint laser accurately.
- Automatic Inputs – Optical scanners automatically measure the wheel.
- Automatic Balance Measurement.
- Automatic Behind the Spoke Weight Placement.
- Patented Automatic Power Clamp.
- LED Wheel Lighting.
- Stop-in-Position feature where the operator only has to touch the amount of unbalance on the screen and the wheel is automatically indexed to correction position.
- Collets.

## From compressors to dryers, to filtration and piping...

Champion Air Compressors is the industry leader in manufacturing dependable, industry-proved compressed air systems that will fit your application. Our air compressors feature rugged standard features, a wide selection of configurations, and quality available options that make Champion your source for providing all your compressed air needs. With the introduction of our new control panel featuring a control voltage transformer, Champion continues to provide innovative solutions for our customers.

### Reciprocating Compressors

Part Number	Description	CFM*	Dealer Price	NADA Price
27-HR5D12-208-3	5HP Duplex Advantage Series Reciprocating Compressor. 208V/3PH, 120 gal. Horizontal Tank.	34.0	\$9,258.00	<b>\$8,572.00</b>
27-HR5D12-230-3	5HP Duplex Advantage Series Reciprocating Compressor. 230V/3PH, 120 gal. Horizontal Tank.	34.0	\$9,258.00	<b>\$8,575.00</b>
27-HR7D12-208-3	7.5HP Duplex Advantage Series Reciprocating Compressor. 208V/3PH, 120 gal. Horizontal Tank.	51.2	\$12,261.00	<b>\$11,350.00</b>
27-HR7D12-230-3	7.5HP Duplex Advantage Series Reciprocating Compressor. 230V/3PH, 120 gal. Horizontal Tank.	51.2	\$12,261.00	<b>\$11,350.00</b>
27-HR10D24-208-3	10HP Duplex Advantage Series Reciprocating Compressor. 208V/3PH, 240 gal. Horizontal Tank.	67.6	\$14,867.00	<b>\$13,765.00</b>
27-HR10D24-230-3	10HP Duplex Advantage Series Reciprocating Compressor. 230V/3PH, 240 gal. Horizontal Tank.	67.6	\$13,699.00	<b>\$12,685.00</b>
27-HR15D24-200-3	15HP Duplex R-Series Reciprocating Compressor. 208V/3PH, 240 gal. Horizontal Tank.	108.2	\$22,267.00	<b>\$20,615.00</b>
27-HR15D24-230-3	15HP Duplex R-Series Reciprocating Compressor. 230V/3PH, 240 gal. Horizontal Tank.	108.2	\$22,267.00	<b>\$20,615.00</b>
27-HQR58-230-3	5HP Simplex Revolution Quiet Enclosed Reciprocating Compressor. 230V/3PH, 80 gal. Horizontal Tank.	16.8	\$8,142.00	<b>\$7,535.00</b>
27-HQR7F8-230-3	7.5HP Simplex Revolution Quiet Enclosed Reciprocating Compressor. 230V/3PH, 80 gal. Horizontal Tank.	22.4	\$8,742.00	<b>\$8,095.00</b>

\* Control panel on both Simplex and Duplex Advantage and R-Series packages provides a larger enclosure for more working room, a DIN rail and terminal strip for a cleaner and simpler method of wiring accessory components, and a control voltage transformer that supplies safer, low voltage power to package components like the low oil monitor and pressure switch.

\* Total combined CFM of the package.

### Refrigerated Dryers

Part Number	Description	CFM	Dealer Price	NADA Price
27-CGDA25A1-FP	25 cfm Refrigerated Air Dryer With Filtration Package, 115v/1PH	25	\$2,496.00	<b>\$2,135.00</b>
27-CGDA32A1-FP	32 cfm Refrigerated Air Dryer with Filtration Package	32	\$2,998.00	<b>\$2,565.00</b>
27-CGDA42A1-FP	42 cfm Refrigerated Air Dryer with Filtration Package	42	\$3,438.00	<b>\$2,940.00</b>
27-CGDA50A1-FP	50 cfm Refrigerated Air Dryer with Filtration Package	50	\$3,745.00	<b>\$3,200.00</b>
27-CGD75A1FP	75 cfm Refrigerated Air Dryer With Filtration Package, 115v/1PH	75	\$4,529.00	<b>\$4,135.00</b>
27-CGD100A1FP	100 cfm Refrigerated Air Dryer With Filtration Package, 115v/1PH	100	\$4,587.00	<b>\$4,185.00</b>

CGD series refrigerated air dryers offer the perfect balance between technology and simplicity to dry compressed air systems to a stable ISO 8573-1 Air Quality, Class 4 to 5 pressure dew point. Dryers include Loose pre-filtration (CFL Grade C) and after-filtration (CFL Grade E) - representation as shown.

## Self-Evacuating "Pumpless" Waste Oil Drain

Uses standard shop air set at 8 PSI to evacuate the drain into a waste oil holding tank. 24-gallon steel tank for use with used oils.

471-TIM-317-A

**NADA \$655.00**

Dealer Price \$902.00

## Large Capacity Waste Oil Drain

Includes an articulating 15.75" diameter metal drain bowl with an oil filter draining screen, a 24" removable plastic drain bowl expansion funnel, storage tray, built-in gauge and 3/4" fluid quick disconnect.

471-TIM-315-COMP2

**NADA \$665.00**

Dealer Price \$917.00

## Self-Evacuating Waste Oil Extractor

Self-Evacuating Waste Oil Extractor 24-gallon waste oil extractor utilizes shop air to extract oil via suction probes directly into the units holding tank. Collecting waste oil can then be evacuated from the 24-gallon tank into larger waste oil tanks using shop air. Features an easy to read vacuum gauge for suction and safety pop-off valve to prevent over pressurization. Includes removable storage tray, built-in fluid gauge, 7' discharge hose, suction hose and 6-piece probe set. Power-coated black paint.

Assembly required.

471-TIM-340

**NADA \$665.00**

Dealer Price \$871.00

## Digital Metered Control Handle for Oils or Antifreeze

Digital Metered Control Handle for Oils with Flexible Extension & Manual Non-Drip Tip.

Equipped with trigger guard, flexible extension and manual non-drip tip. Meter body designed with field replaceable "plug and play" electronic sand isolated fluid chamber. 2.5 GPM flow.

471-TIM-600-FM

**NADA \$285.00**

Dealer Price \$444.00

## Self-Evacuating Combo Waste Oil Extractor/Drain

24-gallon combination waste oil extractor/drain utilizes shop air to extract oil via suction probes directly into the units holding tank as well as the traditional method of draining oil through the drain bowl into the tank. Collected waste oil can then be evacuated from the 24-gallon tank into larger waste oil tanks using shop air. Features include 15-3/4" articulating metal drain bowl with 24" plastic expansion funnel and oil filter draining screen, easy to read vacuum gauge for suction and safety pop-off valve to prevent over pressurization. Includes removable storage tray, built-in fluid gauge, 7' discharge hose, suction hose and 6-piece probe set. Power-coated black paint.

# Efficiency is Everything

Expert service equipment and systems planning will optimize the flow of people, equipment and vehicles—at no extra cost to you!

## Four Proven Steps:

### 1 Equipment & Systems Needs Consultation Assessment

Key project document detailing contact information, target launch/phase dates, building requirements and recommended shop equipment to enhance fixed operations.

### 2 Detailed CAD Drawing

Includes detailed equipment and systems layout in service area as well as a lighting plan with photometric data.

### 3 Comprehensive Specifications & Budget

Includes detailed specifications for all major equipment called out in the Needs Assessment. Also includes a preliminary equipment and systems budget.

### 4 Project Coordination & Support

Single point of contact for service equipment and installation.

**Most architects and contractors don't understand the needs of a service facility—we do!**

*Equipment and Systems Planning team members know service areas need to be set up to provide an optimal flow of people, equipment and vehicles into and out of the area. Because of our close partnership with the OEM, we know the MBUSA-approved equipment – where to place it for the best usage and work flow throughout the shop and how to get it installed.*

### Our experts will ensure your facility:

- Accommodates Future Vehicles
- Provides Layout Efficiency
- Maximizes Shop Throughput
- Meets OEM Design Criteria

Mercedes-Benz

## Visualize Your Service Department in 3D!

- Explore your shop design in beautiful real-time 3D prior to construction. Take a walk in the repair shop and see exactly how it will look in real life (via online web conference).
- Verify equipment color(s) suit your needs prior to purchase.
- Validate all selected equipment will fit and function properly within the Service Area without interference with the building infrastructure/mechanical systems.
- Realistic images allow comparison of key product selections, in-ground versus above ground lifts/exhaust systems, tool boxes and workbenches.
