Includes detailed specifications for all major equipment called out in the Needs Assessment. Also includes a preliminary equipment and systems budget.

### 4. Project Coordination & Support

Single point of contact for service equipment and installation.

Most architects and contractors don't understand the needs of a service facility—we do!

Equipment and Systems Planning team members know service areas need to be set up to provide an optimal flow of people, equipment and vehicles into and out of the area. Because of our close partnership with the OEM, we know the MINI-approved equipment – where to place it for the best usage and work flow throughout the shop and how to get it installed.

**Our experts will ensure your facility:**

- Accommodates Future Vehicles
- Provides Layout Efficiency
- Maximizes Shop Throughput
- Meets OEM Design Criteria
