The screenshot shows the 'DEALER EQUIPMENT PROGRAM' website. At the top, there's a navigation bar with links: EQUIPMENT, TOOL RENTAL, DEALS, FACILITY PLANNING, and NEWS+. Below this is a sub-navigation bar with the MINI logo and links: PROGRAM OVERVIEW, SALES REP LOCATOR, CONTACT US, and PRICING. On the right side of the sub-navigation bar are links: Login Equipment, Register, and View Cart. The main content area is divided into two columns. The left column is titled 'PRODUCT CATALOG' and features a search bar and a list of equipment categories with item counts: Air Conditioning (42), Aluminum Repair Center (10), Amenities (5), Battery Service (14), Brake Service (42), Car Wash and Detail Systems (61), Cleaning / Disinfection Chemicals & Equipment (5), Cleaning and Maintenance (37), Collision & Measuring Systems (27), Compressed Air Systems (198), Diagnostic Tools (14), Diesel Exhaust Fluid (1), EV Equipment (7), Exhaust Extraction (49), Express Service (46), and Facility Support (47). The right column features a large banner for 'Polycarbonate Protective Screen' by Shure, highlighting features like '1/4" thick with stainless steel side support brackets' and 'Place on any counter top or work surface'. Below the banner is a 'Learn More' button. At the bottom of the right column is a section titled 'Your One Stop Shop for Equipment' with a 'Learn more' button and an image of a blue MINI car.

Serious Lift Capability for Every Service Job

10,000 lb. Two-Post Asymmetric Lift With AV Arms

Rotary's AV Arms allow you to properly lift any vehicle on recommended OEM pickup points. Get more vehicles in the shop and on the lift faster with easy spotting and superior lifting capabilities.

- Easily spot lower profile vehicles with the 3 3/8" minimum adapter height.
- All vehicle arms with increased reach.
- Reach small, specific pick-up points on EVs with enough clearance to remove propulsion batteries.
- High-strength tapered arms for easier and faster positioning of adapters compared to traditional arm designs.
- Front Arm Reach 18 1/2" min., 41" max
- Rear Arm Reach 27 5/8" min., 58 1/4 " max.
- Lift comes standard with round adapters, truck adapters and stacking extensions to lift, unibody, frame and EV.

39-SPOA10-AV

\$7,625.00

Dealer Price \$8,146.00

Approved by BMW for use on EV vehicles.

Smart Lift Wide 10,000 lb. Inground Lift

Smart Lift Wide lift 10K lbs. Inground Lift with AV arms for all EV and ICE vehicles. LDS with Bench/Wall or Optional Pedestal when ordered with Lift (T110280BK).

- Rotary Smart Lift is now even more versatile.
- Perfect combination for EV's, Low Profile Exotics, Unibody and Light Trucks.
- Lift every type of vehicle on ONE LIFT.
- The industry's best access and clearance with 48% more under car access and 88" of space.
- Comes with interchangeable adapter options – right out of the box.
- 10% greater arm sweep and 15% lower adapter height than any other inground in the market.

39-SLW210-AV

\$19,990.00

Dealer Price \$20,943.00

Approved by BMW for use on EV vehicles.

Vehicle Lifts and Exhaust Extraction

10,000 lb. Versymmetric 2-Post Lift, Adjustable Width

- Versymmetric offset front arms provide directSPOT™ to vehicle lift points and safely lifts both symmetrically and asymmetrically within the same service bay, maximizing service capabilities and revenue potential.
- Oversized 5" diameter pulley and heavy duty 5/16" cable reduce stress on equalization system and increase cable life.
- 48" elongated carriage design increases lift life.
- Standard model fits 12 foot ceiling height. Additional 2 foot or 3 foot extensions available.
- Padded overhead shut off system prevents vehicle damage.

67-CL10AV3

\$6,345.00

Dealer Price \$6,917.00

10,000 lb. Wide Inground Lift

10,000 lb. hydraulic inground lifts provide an extra-wide drive-through clearance for servicing wide-bodied and electric vehicles. Its design allows for battery-lowering out of electric vehicles and comes standard with True 3-Stage arms and double-telescoping screw pads.

- 3-Stage arms and double-telescoping screw pads.
- 88" Drive Thru Clearance.
- The extra width provides technicians enough clearance to remove/install battery and battery packs easily.

67-EW1020

\$16,650.00

Dealer Price \$18,154.00

Approved by BMW for use on EV vehicles.

Spot Welder and Brake Fluid Service

GYSPOT PTI Genius

The G9 arm is a C-shaped arm that turns the clamp from a C movement to a X movement. It is designed to be highly ergonomic and easy to use, and allows the use of the AUTO mode of the GYSPOT BPLG which automatically sets the spot weld parameters.

Features:

- Quick set up with no tools required.
- No need to adjust the electrode.
- From G1 to G9 in less than 5 seconds.
- Automatic connection to the cooling system.
- Opening operated by the clamp.
- Integrated arm support (mounted on a trolley or wall).
- In automatic mode, the spot welder equipped with its G9 arm automatically determines the type of steel, the thickness of the sheet and the presence of glue and insulating material between the HLE/THLE, UHLE and boron sheets.
- Welding current: 13,000 A.
- Max. clamping force 550 daN at 8 bars with X1.
- Liquid cooling of electrodes and caps.
- Automatic mode compatible with 3 copper arms (X1, X2 and X6).

Mahle BFX-60 Brake Fluid Exchange Unit

FluidPRO® brake fluid flush systems deliver complete brake fluid exchange using simple processes.

Features:

- Constructed for larger volumes. The brake fluid is removed directly from its 16 gal original container.
- Fitted with the BFX PLUS extraction system.
- Fitted with an infinitely variable pressure suction tube with sieve.
- Suitable for ABS, ESP, EDS and SBC.
- Pulsating fluid flow to pressurize air bubbles out of the braking system.
- Automatic switch-off on empty container.
- Pressure-less decoupling from vehicle.
- Venting of device during container changeover not necessary.
- Adapter available for all established vehicle types.

Brake Service

2.5 Gallon Electric Brake Bleeder

Features:

- Easy to use, only one person needed for operation.
- Quick change of brake fluid.
- Suitable for all ABS systems (including EDS, ESP and SBC systems) and hydraulic couplings.
- Pulsating liquid flow.
- Automatic low fluid level shut off to prevent air bubbles.
- Instantly depressurizes when switched off.
- Has an adjustable pressure regulator from 0-50 psi.
- Easy to steer around the shop.

801-STBBE2.5GAL

\$1,375.00

Dealer Price \$1,571.00

4.0 Gallon Electric Brake Bleeder

Leakage test of the braking system in the low-pressure range. Suitable for all ABS systems (including EDS, ESP and SBC systems) and hydraulic clutches.

Features:

- Easy to use, only one person needed for operation. The brake fluid is hermetically separated from the outside air. A reduction in the boiling point is excluded.
- Automatic low fluid level shut off to prevent air bubbles.
- Instantly depressurizes when switched off.
- Has an adjustable pressure regulator from 0-50 psi.
- Comes with a 10ft pressure hose.
- 4.0 Gallon Canister.
- Easy to steer around the shop.
- Only one person needed for operation.
- Pulsating fluid stream.

Air Conditioning Service and Accessories

Tracer Gas Leak Detector Service Kit

The Robinair Tracer Gas service kit gives technicians the tools necessary to use tracer gas in place of refrigerant to find A/C system leaks. The LD9-TGKIT includes a hydrogen gas leak detector with sensor technology designed to detect a 5% hydrogen/95% nitrogen tracer gas mixture. The detector's full color liquid crystal display (LCD) and sweep mode function convey messages, graphics, and prompts to help technicians locate the source of a leak and ensure that the leak detector is always at optimal performance. A patented 3 LED inspection light aids in locating and inspecting suspected leak sources.

42-LD9-TGKIT

Efficiency is Everything

Expert service equipment and systems planning will optimize the flow of people, equipment and vehicles—at no extra cost to you!

Four Proven Steps:

1 Equipment & Systems Needs Consultation Assessment

Key project document detailing contact information, target launch/phase dates, building requirements and recommended shop equipment to enhance fixed operations.

2 Detailed CAD Drawing

Includes detailed equipment and systems layout in service area as well as a lighting plan with photometric data.

3 Comprehensive Specifications & Budget

Includes detailed specifications for all major equipment called out in the Needs Assessment. Also includes a preliminary equipment and systems budget.

4 Project Coordination & Support

Single point of contact for service equipment and installation.

Most architects and contractors don't understand the needs of a service facility—we do!

Equipment and Systems Planning team members know service areas need to be set up to provide an optimal flow of people, equipment and vehicles into and out of the area. Because of our close partnership with the OEM, we know the MINI-approved equipment – where to place it for the best usage and work flow throughout the shop and how to get it installed.

Our experts will ensure your facility:

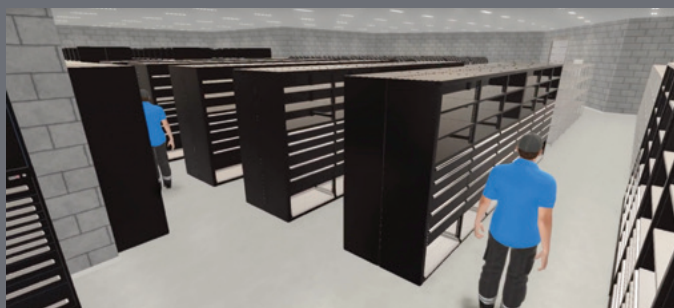

- Accommodates Future Vehicles
- Provides Layout Efficiency
- Maximizes Shop Throughput
- Meets OEM Design Criteria

Call today to speak with an Equipment & Systems Planning Specialist! 1.888.222.7997

Visualize Your Service Department in 3D!

- Explore your shop design in beautiful real-time 3D prior to construction. Take a walk in the repair shop and see exactly how it will look in real life (via online web conference).
- Verify equipment color(s) suit your needs prior to purchase.
- Validate all selected equipment will fit and function properly within the Service Area without interference with the building infrastructure/mechanical systems.
- Realistic images allow comparison of key product selections, in-ground versus above ground lifts/exhaust systems, tool boxes and workbenches.
