## Robinair Connected R-1234yf ACS Machine

The Robinair AC1234-9 Connected R-1234YF ACS Machine recovers, recycles, evacuates, leak-tests and recharges R-1234yf with improved 98.5% efficiency — unmatched by any competitor. The new design features a large 10" capacitive touch LCD display, and automated features including automatic internal refrigerant refill, oil drain and refrigerant identification.

The AC1234-9 also boasts full wireless capabilities for Wi-Fi or Bluetooth® communication, which enables automatic machine software updates and capacities database downloads. Use Google Cloud printing to print A/C service summary reports for customers or insurance companies. It effectively manages and stores machine metrics and data related to services performed with the ACS machine to include in vehicle service reports. The Android operating system can also export service reports to store or share digitally.
