Serious Lift Capability for Every Service Job

TOOL & EQUIPMENT PROGRAM

10,000 lb. Two-Post Asymmetric Lift With AV Arms

Rotary's AV Arms allow you to properly lift any vehicle on recommended OEM pickup points. Get more vehicles in the shop and on the lift faster with easy spotting and superior lifting capabilities.

- Easily spot lower profile vehicles with the 3 3/8" minimum adapter height.
- All vehicle arms with increased reach.
- Reach small, specific pick-up points on EVs with enough clearance to remove propulsion batteries.
- High-strength tapered arms for easier and faster positioning of adapters compared to traditional arm designs.
- Front Arm Reach 18 1/2" min., 41" max
- Rear Arm Reach 27 5/8" min., 58 1/4 " max.
- Lift comes standard with round adapters, truck adapters and stacking extensions to lift, unibody, frame and EV.

39-SPOA10-AV

\$7,625.00

Dealer Price \$8,146.00

12,000 lb. Wide Inground With AV Arms

12,000 lb. wide in-ground SmartLift with truck adapters and compact bench mounted controls. 88" of drive-through clearance.

39-SLW212IN20MOBL

\$20,605.00

Dealer Price \$22,469.00

Vehicle Lifts and Exhaust Extraction

TOOL & EQUIPMENT PROGRAM

10,000 lb. Versymmetric 2-Post Lift, Adjustable Width

- Versymmetric offset front arms provide directSPOT™ to vehicle lift points and safely lifts both symmetrically and asymmetrically within the same service bay, maximizing service capabilities and revenue potential.
- Oversized 5" diameter pulley and heavy duty 5/16" cable reduce stress on equalization system and increase cable life.
- 48" elongated carriage design increases lift life.
- Standard model fits 12 foot ceiling height. Additional 2 foot or 3 foot extensions available.
- Padded overhead shut off system prevents vehicle damage.

67-CL10AV3

\$6,345.00

Dealer Price \$6,917.00

10,000 lb. Wide Inground Lift

10,000 lb. hydraulic inground lifts provide an extra-wide drive-through clearance for servicing wide-bodied and electric vehicles. Its design allows for battery-lowering out of electric vehicles and comes standard with True 3-Stage arms and double-telescoping screw pads.

- 3-Stage arms and double-telescoping screw pads.
- 88" Drive Thru Clearance.
- The extra width provides technicians enough clearance to remove/install battery and battery packs easily.

T7800 All-In-One Tire Changer

The John Bean T7800 is a leverless tire changer featuring a unique collection of tools, including intuitive control panel, powerMONT™, lower bead camera viewer, on-floor bead breaker and quickLOK™ technology. It was engineered with superior functionalities that require less effort for technicians to operate and an advanced set of tools that only touch the tire, never the rim, minimizing the risk of damage when working with standard, UHP and run-flat tires.

119-EEWH586AUB
\$23,865.00
 Dealer Price \$29,489.00

B1200P Automated Wheel Balancer in Black

The B1200P is a fully automatic machine that automatically detects rim diameter and offset distance and chooses the correct balancing mode, weight type, and placement without any manual interaction from a technician.

Features like easyWeight™ technology utilize laser-guided precision to show the exact location of optimal weight placement. Balance high-performance wheels with confidence and ensure a better appearance of the wheel with our Split Weight Mode that allows for accurate balancing of alloy rims while hiding the weights behind the spokes. Productivity-enhancing features like wheel measurement scanning, automatic spoke detection, and electromechanical Power Clamp™ provide pinpoint accuracy and efficiency.

The B1200P wheel balancer from John Bean is simple to operate and provides state-of-the-art diagnosis with unique attributes to make every wheel balancing job easier and more accurate than ever.

Tire Carousel and Parts Washers

TOOL & EQUIPMENT PROGRAM

Vidir Tire Carousel

Vidir's Tire Carousel is the ultimate tire storage solution for organizing, storing, displaying, and accessing tires efficiently and ergonomically. The Tire Carousel is a semi-automated vertical carousel that consists of tire carriers that rotate up and down to deliver tires to the operator at an ergonomic height, eliminating the need for ladders, forklifts, and other hazardous retrieval methods.

- Maximizes available storage by utilizing overhead space.
- Up to 352 tires can be stored on a single standard carousel.

Air Conditioning Service and Accessories

TOOL & EQUIPMENT PROGRAM

Tracer Gas Leak Detector Service Kit

The Robinair Tracer Gas service kit gives technicians the tools necessary to use tracer gas in place of refrigerant to find A/C system leaks. The LD9-TGKIT includes a hydrogen gas leak detector with sensor technology designed to detect a 5% hydrogen/95% nitrogen tracer gas mixture. The detector's full color liquid crystal display (LCD) and sweep mode function convey messages, graphics, and prompts to help technicians locate the source of a leak and ensure that the leak detector is always at optimal performance. A patented 3 LED inspection light aids in locating and inspecting suspected leak sources.

Optimize the Flow of People, Equipment and Vehicles

Expert service equipment & systems planning—at no cost to you!

Four Proven Steps:

1 Equipment & Systems Needs Consultation Assessment

Key project document detailing contact information, target launch/phase dates, building requirements and recommended shop equipment to enhance fixed operations.

2 Detailed CAD Drawing

Includes detailed equipment and systems layout in service area as well as a lighting plan with photometric data.

3 Comprehensive Specifications & Budget

Includes detailed specifications for all major equipment called out in the Needs Assessment. Also includes a preliminary equipment and systems budget.

4 Project Coordination & Support

Single point of contact for service equipment and installation.

Let us partner with your architects and contractors to meet all of your facility needs.

Equipment and Systems Planning team members know service areas need to be set up to provide an optimal flow of people, equipment and vehicles into and out of the area. Because of our close partnership with the OEM, we know the Mazda-approved equipment – where to place it for the best usage and work flow throughout the shop and how to get it installed.

Our experts will ensure your facility:

- ▶ Accommodates Future Vehicles
- ▶ Provides Layout Efficiency
- ▶ Maximizes Shop Throughput
- ▶ Meets OEM Design Criteria

Visualize Your Service Department in 3D!

► Explore your shop design in beautiful real-time 3D prior to construction. Take a walk in the repair shop and see exactly how it will look in real life (via online web conference).

► Verify equipment color(s) suit your needs prior to purchase.

► Validate all selected equipment will fit and function properly within the Service Area without interference with the building infrastructure/mechanical systems.

► Realistic images allow comparison of key product selections, in-ground versus above ground lifts/exhaust systems, tool boxes and workbenches.
