Tire and Wheel Service

V3300 Diagnostic Wheel Alignment System with VIN Scanner

With a new notification system that provides critical information without slowing you down, the V3300 wheel aligner puts every alignment on the fast track. The groundbreaking user interface provides instant access to critical tasks in an intelligent flow, ensuring vehicle-specific assistance is always just one click away.

- Next Generation UI Optimized for High-Volume User.
- Diagnostic alignment with "Compensate-Warn-Alert" intervention gets it right the first time.
- Unique camera beam design to fit through a standard doorway and protect cameras.
- Highly Accurate and Reliable XD Camera Technology.
- Low profile design, lowers the center of gravity for improved stability when moving.
- VIN Scanner included.

- Power Requirements: 100-240V AC (must have earth ground) 1Ph 50/60Hz UL201, C22.2, CE Approved.
- Shipping Weight: 544 lbs. (246.75 kg)

119-EEWA552BV2
\$28,895.00
Regular Price \$36,163.00

Save an additional \$2,000* on Alignment purchase when adding **5-Year peace-of-mind warranty package (119-EXTENDWARR)**!

*Offer valid on purchases January 1 - February 28, 2023 only.

V2380 Imaging Wheel Alignment System

Now there's an advanced imaging alignment system that doesn't require lots of training or experience to operate. With the latest XD target and camera system, the V2380 features advanced technology, combined with the simplest, most intuitive software we've ever offered providing the essential tools for any alignment tech. It's the best of both worlds.

- High resolution cameras produce accurate, live alignment readings and diagnostic data.
- The camera beam automatically follows as the vehicle is raised by tracking the targets.
- Video speed cameras constantly monitor the alignment and provide critical information to get the job done right.
- Our user interface streamlines workflow for enhanced productivity and ensures that alignment repair information is always one click away.
- Touchless AC400 tire clamping system.
- EZ-Toe eliminates the need for steering wheel holder.

- Patented Cross-Diagonal and Rolling Radius.
- Guided adjustments of a single tie rod, A-Arm, drag link and cradle.
- Wheels-off mode eases hard-to-reach adjustments.
- Maximize profitability with integrated, fast audit check.
- Includes VIN Scanner for fast identification of vehicle make and model.

\$26,285.00
Regular Price \$31,584.00

B2000P Diagnostic Wheel Balancing System

The B2000P is the only automated diagnostic wheel balancing system that offers touchless measurement and analysis. Automatic inputs remove the chance for error and inaccurate results. When combined with precise wheel balancing, the Runout Force Vectoring (RFV) diagnostics assure uniformity based total ride quality.

- **Laser Based Runout** provides advanced measurements quickly and easily, surpassing roller-based system performance.
- **High-Resolution Camera And Laser-Based Topography** renders 3D visuals to reveal problems that otherwise go undetected – making this machine a technician's dream for solving vibration issues.
- **Patented Automatic Power Clamp** ensures accurate and consistent clamping to provide reliable, repeatable measurements.

- **Touchscreen Monitor** provides improved ergonomics with an enhanced user interface.
- **Automatic Inputs and Balance Measurements** eliminate the risk of technician error and optimize the entire balancing process.

Serious Lift Capability

SmartLift

10,000 lb capacity, inground SmartLift with Trio arms, LDS, and rubber adapters.

Features:

- Patented Liquid Detection System (LDS) signals the user if moisture develops in the containment to help prevent the accumulation of water.
- Operates on 15 quarts of fluid in an enclosed polymer cassette.
- Engineered for serviceability -- more uptime and less downtime when service is needed, a lower cost of ownership over the life of the lift.
- 8.5-inch diameter pistons that hold the superstructure and high pressure cylinder providing more stability.
- Future kits available for additional lifts at anytime.
- Easy Access hydraulic cylinder (US Patent No. 6,571,919) reduces routine repair time by 75%. Rotary's repair only takes 2 hours vs. 6-8 hours for competitive products.
- Patented locking system (US Patent No. D469,791S). Features polymer construction and stainless steel moving parts that provide maximum corrosion resistance and service life.
- New two-piece, lower-profile arms reach a wide range of vehicle lift points while providing greater clearance between the lift and the vehicle with 18% more reach.

39-SL210i-RA
\$12,110.00
Regular Price \$12,897.00

- Lower-profile structure provides greater drive-thru clearance and recessed bolts.
- Built-in storage compartment for small parts or tools.
- Polymer RA adapters screw into position and are ideal for unibody vehicles.

10,000 lb. Two-Post Asymmetric Surface-Mounted Lift with Trio Arms and Round Rubber Adapters

- 10,000 lb. lifting capacity.
- Round rubber adapters with vertical adjustment, ideal for lifting vehicles of unibody construction.
- Asymmetric lift design, featuring factory-rotated columns to maximize door-opening clearance for passenger cars.
- TRIO arm design, has maximum reach and retraction to handle a broader range of vehicles.
- High-pressure, full-stroke cylinders in both columns.
- Multi-position column locks engage every 4".
- Original "Double S" single-piece column design maximizes column strength.
- Slider bearings of Tivar 1000 polyethylene are self-lubricating and maintenance free.

39-SPOA10-RA-TRIO

On-Car Brake Lathe and Collision Repair

X15-6ADP Car and Light Truck Package

The X15 is the latest innovation in on-vehicle rotor matching. The all-new computer system provides disc tracking, maintenance alerts, and variable speed control. The X15 is the first and only rotor matching system in the world to be driven by a 48v DC motor. Expect smooth operation, tighter run-out tolerances, and superior surface finishes. The 48v DC difference is incredible!

Features:

- Variable speed DC motor.
- Latest advanced electronics platform.
- Performance plus cutting head.
- Patented one-touch Lateral Run Out (LRO) compensation.
- Six-LED on-board work light.
- 2-year parts and labor warranty.

Service Jacks, Car Dollies and Jack Stands

3 Ton Capacity Service Jack

Flanged upper body edge increases strength to resist twisting. A light, compact design makes this jack easy and convenient to use when positioning under a vehicle and lifting. A built-in safety overload system prevents use beyond the rated capacity for safer operation. Dual Pump Design lifts 800kg (1750 lb.) load to 19 inches in just 3 pumps. Cycle tested design for a long life of professional duty.

- Reach: 63.9"
- Saddle: 4" dia., steel crown
- Lifting range: 5-3/4" to 18-1/2"
- Frame height: 6.3"
- Handle length: 39-1/2" padded lower handle
- Floor space: 13.4" x 24.5"
- Casters: 4; 3.5" front fixed (2), 2.36" rear swivel (2)
- Limited Lifetime Warranty

1,500 lb. Easy Roller™

Provides a simple and efficient method to move a disabled vehicle around a shop environment.

Two-year warranty.

(Sold individually, recommend purchasing a minimum of two Easy Rollers.)

Also Available:

16-1572

Pair of Car Dollies, 3,600 lb. capacity (1,800 lb. capacity each). Lifetime Warranty. Sold in pairs.

\$275.00

Regular Price \$321.00

2-Ton Aluminum Jack Stand Pack

The newly updated 2-Ton Aluminum Racing Service Jack Pack combines the 16-1532A Service Jack and the 16-1582A Jack Stands for a ready-to-go package. The lightweight, 41-pound jack includes side handles for easy transport and loading into a truck for mobile service calls. Quick-lift design gets vehicles in the air quickly with fewer pumps. New and improved hydraulics and a wider track for the wheels make it durable and easy-to-use. A 4" padded lower handle protects rocker and door panels while providing maximum leverage to lift vehicles to a maximum of 18.5". Rubber saddle protects vehicle undercarriage and prevents slipping. Saddle can be removed for lower profile to get under road-hugging vehicles as low as 3.4". Meets new PASE safety standards.

- Durable construction allows the products to meet the latest PASE Standard.
- Rear swivel casters and front stationary wheels for maneuverability and fast placement under vehicle.
- U-shaped saddle on stands securely holds vehicle.
- Quick-placement pin on stands for easy and fast setup.
- Warranty: Lifetime.

Leak Detection, Digital Trmometer and Air Conditioning Accesories

Tracer Gas Leak Detector Service Kit

The Robinair Tracer Gas service kit gives technicians the tools necessary to use tracer gas in place of refrigerant to find A/C system leaks. The LD9-TGKIT includes a hydrogen gas leak detector with sensor technology designed to detect a 5% hydrogen/95% nitrogen tracer gas mixture. The detector's full color liquid crystal display (LCD) and sweep mode function convey messages, graphics, and prompts to help technicians locate the source of a leak and ensure that the leak detector is always at optimal performance. A patented 3 LED inspection light aids in locating and inspecting suspected leak sources.

42-LD9-TGKIT
\$715.00
Regular Price \$763.00

Efficiency is Everything

Expert service equipment and systems planning will optimize the flow of people, equipment and vehicles—at no extra cost to you!

Four Proven Steps:

1 Equipment & Systems Needs Consultation Assessment

Key project document detailing contact information, target launch/phase dates, building requirements and recommended shop equipment to enhance fixed operations.

2 Detailed CAD Drawing

Includes detailed equipment and systems layout in service area as well as a lighting plan with photometric data.

3 Comprehensive Specifications & Budget

Includes detailed specifications for all major equipment called out in the Needs Assessment. Also includes a preliminary equipment and systems budget.

4 Project Coordination & Support

Single point of contact for service equipment and installation.

Most architects and contractors don't understand the needs of a service facility—we do!

Equipment and Systems Planning team members know service areas need to be set up to provide an optimal flow of people, equipment and vehicles into and out of the area. Because of our close partnership with the OEM, we know the Mitsubishi-approved equipment – where to place it for the best usage and work flow throughout the shop and how to get it installed.

Our experts will ensure your facility:

- ▶ Accommodates Future Vehicles
- ▶ Provides Layout Efficiency
- ▶ Maximizes Shop Throughput
- ▶ Meets OEM Design Criteria

Call today to speak with an Equipment & Systems Planning Specialist! 1-888-727-6672

Visualize Your Service Department in 3D!

- ▶ Explore your shop design in beautiful real-time 3D prior to construction. Take a walk in the repair shop and see exactly how it will look in real life (via online web conference).
- ▶ Verify equipment color(s) suit your needs prior to purchase.
- ▶ Validate all selected equipment will fit and function properly within the Service Area without interference with the building infrastructure/mechanical systems.
- ▶ Realistic images allow comparison of key product selections, in-ground versus above ground lifts/exhaust systems, tool boxes and workbenches.
