10,000 Two-Post Asymmetric Lift With AV Arms

Rotary's AV Arms allow you to properly lift any vehicle on recommended OEM pickup points. Get more vehicles in the shop and on the lift faster with easy spotting and superior lifting capabilities.

- Easily spot lower profile vehicles with the 3 3/8" minimum adapter height.
- All vehicle arms with increased reach.
- Reach small, specific pick-up points on EVs with enough clearance to remove propulsion batteries.
- High-strength tapered arms for easier and faster positioning of adapters compared to traditional arm designs.
- Front Arm Reach 18 1/2" min., 41" max
- Rear Arm Reach 27 5/8" min., 58 1/4" max.
- Lift comes standard with round adapters, truck adapters and stacking extensions to lift, unibody, frame and EV.

Tire and Wheel Service

V2380 Imaging Wheel Alignment System

Now there's an advanced imaging alignment system that doesn't require lots of training or experience to operate. With the latest XD target and camera system, the V2380 features advanced technology, combined with the simplest, most intuitive software we've ever offered providing the essential tools for any alignment tech. It's the best of both worlds.

Features:

- High resolution cameras produce accurate, live alignment readings and diagnostic data.
- The camera beam automatically follows as the vehicle is raised by tracking the targets.
- Video speed cameras constantly monitor the alignment and provide critical information to get the job done right.
- Our user interface streamlines workflow for enhanced productivity and ensures that alignment repair information is always one click away.
- Touchless AC400 tire clamping system.

Fluid and Lube Handling

Self-Evacuating "Pumpless" Waste Oil Drain

Uses standard shop air set at 8 PSI to evacuate the drain into a waste oil holding tank. 24-gallon steel tank for use with used oils.

471-TIM-317-A

NADA \$655.00

Retailer Price \$902.00

Large Capacity Waste Oil Drain

Includes an articulating 15.75" diameter metal drain bowl with an oil filter draining screen, a 24" removable plastic drain bowl expansion funnel, storage tray, built-in gauge and 3/4" fluid quick disconnect.

471-TIM-315-COMP2

NADA \$665.00

Retailer Price \$917.00

Self-Evacuating Waste Oil Extractor

Self-Evacuating Waste Oil Extractor 24-gallon waste oil extractor utilizes shop air to extract oil via suction probes directly into the units holding tank. Collecting waste oil can then be evacuated from the 24-gallon tank into larger waste oil tanks using shop air. Features an easy to read vacuum gauge for suction and safety pop-off valve to prevent over pressurization. Includes removable storage tray, built-in fluid gauge, 7' discharge hose, suction hose and 6-piece probe set. Power-coated black paint.

Assembly required

471-TIM-340

NADA \$665.00

Retailer Price \$871.00

Digital Metered Control Handle for Oils or Antifreeze

Digital Metered Control Handle for Oils with Flexible Extension & Manual Non-Drip Tip.

Equipped with trigger guard, flexible extension and manual non-drip tip. Meter body designed with field replaceable "plug and play" electronic sand isolated fluid chamber. 2.5 GPM flow.

471-TIM-600-FM

NADA \$285.00

Retailer Price \$444.00

Self-Evacuating Combo Waste Oil Extractor/Drain

24-gallon combination waste oil extractor/drain utilizes shop air to extract oil via suction probes directly into the units holding tank as well as the traditional method of draining oil through the drain bowl into the tank. Collected waste oil can then be evacuated from the 24-gallon tank into larger waste oil tanks using shop air. Features include 15-3/4" articulating metal drain bowl with 24" plastic expansion funnel and oil filter draining screen, easy to read vacuum gauge for suction and safety pop-off valve to prevent over pressurization. Includes removable storage tray, built-in fluid gauge, 7' discharge hose, suction hose and 6-piece probe set. Power-coated black paint.

Air Conditioning Service and Accessories

Tracer Gas Leak Detector Service Kit

The Robinair Tracer Gas service kit gives technicians the tools necessary to use tracer gas in place of refrigerant to find A/C system leaks. The LD9-TGKIT includes a hydrogen gas leak detector with sensor technology designed to detect a 5% hydrogen/95% nitrogen tracer gas mixture. The detector's full color liquid crystal display (LCD) and sweep mode function convey messages, graphics, and prompts to help technicians locate the source of a leak and ensure that the leak detector is always at optimal performance. A patented 3 LED inspection light aids in locating and inspecting suspected leak sources.

Efficiency is Everything

Expert service equipment & systems planning will optimize the flow of people, equipment and vehicles—at no extra cost to you!

Four Proven Steps:

1 Equipment & Systems Needs Consultation Assessment

Key project document detailing contact information, target launch/phase dates, building requirements and recommended shop equipment to enhance fixed operations.

2 Detailed CAD Drawing

Includes detailed equipment and systems layout in service area as well as a lighting plan with photometric data.

3 Comprehensive Specifications & Budget

Includes detailed specifications for all major equipment called out in the Needs Assessment. Also includes a preliminary equipment and systems budget.

4 Project Coordination & Support

Single point of contact for service equipment and installation.

Most architects and contractors don't understand the needs of a service facility—we do!

Equipment and Systems Planning team members know service areas need to be set up to provide an optimal flow of people, equipment and vehicles into and out of the area. Because of our close partnership with the OEM, we know the Volvo-approved equipment – where to place it for the best usage and work flow throughout the shop and how to get it installed.

Our experts will ensure your facility:

- ▶ Accommodates Future Vehicles
- ▶ Provides Layout Efficiency
- ▶ Maximizes Shop Throughput
- ▶ Meets OEM Design Criteria

Visualize Your Service Department in 3D!

- ▶ Explore your shop design in beautiful real-time 3D prior to construction. Take a walk in the repair shop and see exactly how it will look in real life (via online web conference).
- ▶ Verify equipment color(s) suit your needs prior to purchase.
- ▶ Validate all selected equipment will fit and function properly within the Service Area without interference with the building infrastructure/mechanical systems.
- ▶ Realistic images allow comparison of key product selections, in-ground versus above ground lifts/exhaust systems, tool boxes and workbenches.
