Serious Lift Capability and AC Service

VOLVO
RETAILER EQUIPMENT

10,000 Two-Post Asymmetric Lift With AV Arms

Rotary's AV Arms allow you to properly lift any vehicle on recommended OEM pickup points. Get more vehicles in the shop and on the lift faster with easy spotting and superior lifting capabilities.

- Easily spot lower profile vehicles with the 3 3/8" minimum adapter height.
- All vehicle arms with increased reach.
- Reach small, specific pick-up points on EVs with enough clearance to remove propulsion batteries.
- High-strength tapered arms for easier and faster positioning of adapters compared to traditional arm designs.
- Front Arm Reach 18 1/2" min., 41" max
- Rear Arm Reach 27 5/8" min., 58 1/4" max.
- Lift comes standard with round adapters, truck adapters and stacking extensions to lift, unibody, frame and EV.

39-SPOA10-AV
\$7,397.00
Retailer Price \$8,146.00

Smart Lift with Trio Arms

10,000 lb. capacity, wide drive-through in-ground lift with rubber adapters.

- Proven environmentally-friendly design with over 47,000 units in operation and a 13-year track record.
- Completely enclosed in polymer composite housing, protecting the environment from the lift and the lift from the environment.
- Operates on only 19 quarts of fluid.
- Patented EasyAccess cylinder design reduces repair time by 75%.

39-SL210-RA
\$11,910.00
Retailer Price \$12,986.00

Automatic A/C Cart | Single-gas R134a Refrigerant Compatible

The single-gas R3AC50 A/C cart is the recovery, recycle and recharge machine your shop needs to provide simple, quick and smart service. Featuring a 50-pound refrigerant tank and a dual-fan evaporator, the R3AC50 maximizes productivity and increases efficiency by automatically checking and displaying oil and refrigerant levels with easy-to-use control panel navigation.

- 50 lb. refrigerant tank (67% larger than most competitors).
- 9 ft. service hoses.
- Quick connect couplers.
- Smarter – WiFi enabled with integrated real-time vehicle data.
- Simpler – Automatically checks and displays oil and refrigerant levels.
- Quicker – Fastest automatic gas change over in the industry.

Tire and Wheel Service

V2380 Imaging Wheel Alignment System

Now there's an advanced imaging alignment system that doesn't require lots of training or experience to operate. With the latest XD target and camera system, the V2380 features advanced technology, combined with the simplest, most intuitive software we've ever offered providing the essential tools for any alignment tech. It's the best of both worlds.

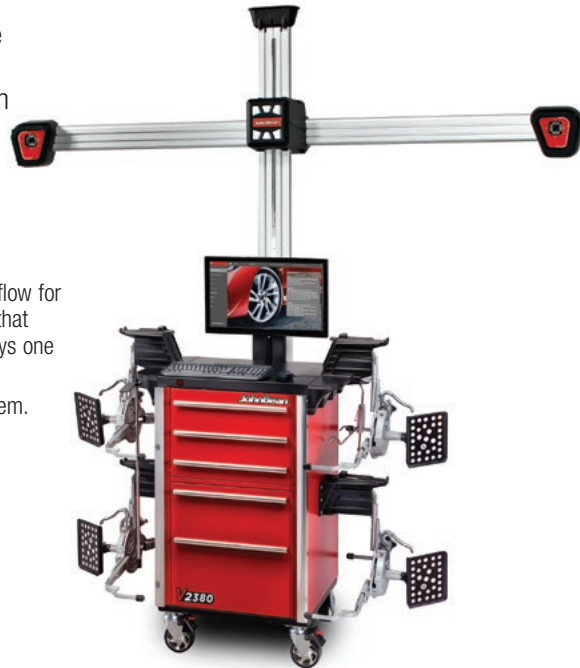

Features:

- High resolution cameras produce accurate, live alignment readings and diagnostic data.
- The camera beam automatically follows as the vehicle is raised by tracking the targets.
- Video speed cameras constantly monitor the alignment and provide critical information to get the job done right.
- Our user interface streamlines workflow for enhanced productivity and ensures that alignment repair information is always one click away.
- Touchless AC400 tire clamping system.

Volvo Simplified Service (VSS) Tool Packages

VOLVO
RETAILER EQUIPMENT

The Volvo Retailer Equipment Program is Your One-Stop-Shop for VSS workshop needs!

Volvo Simplified Service is a new way of structuring your workshop. The foundation of VSS utilizes specific Lean principles, with a streamlined tool set and optimized work standards, all of which are carried out by two technicians per work bay – much like how a race car pit crew would operate.

For additional VSS information please contact Marcus Kingsbury marcus.kingsbury@volvocars.com

3-Ton Capacity Service Jack

Flanged upper body edge increases strength to resist twisting. A light, compact design makes this jack easy and convenient to use when positioning under a vehicle and lifting. A built-in safety overload system prevents use beyond the rated capacity for safer operation. Dual Pump Design lifts 800kg (1750 lb.) load to 19 inches in just 3 pumps. Cycle tested design for a long life of professional duty.

- Reach: 63.9"
- Saddle: 4" dia., steel crown
- Lifting range: 5-3/4" to 18-1/2"
- Frame height: 6.3"
- Handle length: 39-1/2" padded lower handle
- Floor space: 13.4" x 24.5"
- Casters: 4; 3.5" front fixed (2), 2.36" rear swivel (2)
- Limited Lifetime Warranty

Air Conditioning Service and Accessories

Tracer Gas Leak Detector Service Kit

The Robinair Tracer Gas service kit gives technicians the tools necessary to use tracer gas in place of refrigerant to find A/C system leaks. The LD9-TGKIT includes a hydrogen gas leak detector with sensor technology designed to detect a 5% hydrogen/95% nitrogen tracer gas mixture. The detector's full color liquid crystal display (LCD) and sweep mode function convey messages, graphics, and prompts to help technicians locate the source of a leak and ensure that the leak detector is always at optimal performance. A patented 3 LED inspection light aids in locating and inspecting suspected leak sources.

ROBINAIR

R-1234yf Advanced Recover, Recycle and Recharge Machine

The AC1234-4 is a fully automatic ACS machine that meets or exceeds SAE J2927 and J2843 standards for 1234yf recovery. The machine includes an integrated refrigerant identifier that samples the refrigerant in the vehicle's A/C system prior to recovery. AC1234-4 is a highly accurate and reliable machine capable of servicing both standard and high-voltage vehicle A/C systems.

Also Available:

Efficiency is Everything

Expert service equipment & systems planning will optimize the flow of people, equipment and vehicles—at no extra cost to you!

Four Proven Steps:

1 Equipment & Systems Needs Consultation Assessment

Key project document detailing contact information, target launch/phase dates, building requirements and recommended shop equipment to enhance fixed operations.

2 Detailed CAD Drawing

Includes detailed equipment and systems layout in service area as well as a lighting plan with photometric data.

3 Comprehensive Specifications & Budget

Includes detailed specifications for all major equipment called out in the Needs Assessment. Also includes a preliminary equipment and systems budget.

4 Project Coordination & Support

Single point of contact for service equipment and installation.

Most architects and contractors don't understand the needs of a service facility—we do!

Equipment and Systems Planning team members know service areas need to be set up to provide an optimal flow of people, equipment and vehicles into and out of the area. Because of our close partnership with the OEM, we know the Volvo-approved equipment – where to place it for the best usage and work flow throughout the shop and how to get it installed.

Our experts will ensure your facility:

- ▶ Accommodates Future Vehicles
- ▶ Provides Layout Efficiency
- ▶ Maximizes Shop Throughput
- ▶ Meets OEM Design Criteria

Visualize Your Service Department in 3D!

- ▶ Explore your shop design in beautiful real-time 3D prior to construction. Take a walk in the repair shop and see exactly how it will look in real life (via online web conference).
- ▶ Verify equipment color(s) suit your needs prior to purchase.
- ▶ Validate all selected equipment will fit and function properly within the Service Area without interference with the building infrastructure/mechanical systems.
- ▶ Realistic images allow comparison of key product selections, in-ground versus above ground lifts/exhaust systems, tool boxes and workbenches.
