Tire and Wheel Service

V2380 Imaging Wheel Alignment System

Now there's an advanced imaging alignment system that doesn't require lots of training or experience to operate. With the latest XD target and camera system, the V2380 features advanced technology, combined with the simplest, most intuitive software we've ever offered providing the essential tools for any alignment tech. It's the best of both worlds.

Features:

- High resolution cameras produce accurate, live alignment readings and diagnostic data.
- The camera beam automatically follows as the vehicle is raised by tracking the targets.
- Video speed cameras constantly monitor the alignment and provide critical information to get the job done right.
- Our user interface streamlines workflow for enhanced productivity and ensures that alignment repair information is always one click away.
- Touchless AC400 tire clamping system.

V3300 Diagnostic Wheel Alignment System with VIN Scanner

With a new notification system that provides critical information without slowing you down, the V3300 wheel aligner puts every alignment on the fast track. The groundbreaking user interface provides instant access to critical tasks in an intelligent flow, ensuring vehicle-specific assistance is always just one click away.

Features:

- Next Generation UI Optimized for High-Volume User.
- Diagnostic alignment with "Compensate-Warn-Alert" intervention gets it right the first time.
- Unique camera beam design to fit through a standard doorway and protect cameras.
- Highly Accurate and Reliable XD Camera Technology.
- Low profile design, lowers the center of gravity for improved stability when moving.
- VIN Scanner included.
- Power Requirements: 100-240V AC (must have earth ground) 1Ph 50/60Hz UL201, C22.2, CE Approved.
- Shipping Weight: 544 lbs. (246.75 kg)

T7800 All-In-One Tire Changer

The T7800 is a leverless tire changer featuring a unique collection of tools, including intuitive control panel, powerMONT™, lower bead camera viewer, on-floor bead breaker and quickLOK™ technology.

Features:

- quickLOK™ – The fast and effortless automatic wheel clamping with center post design.
- powerMONT™ – The innovative, fast and easy-to-use leverless mount and demount system.
- Lower Bead Camera Viewer – assists technicians during lower bead breaking operation.
- Dynamic bead breaker prevents wheel damage while enhancing precision and productivity with synchronized dual disks.
- PROspeed™ continuously monitors torque and automatically reduces speed during critical procedures.
- Top Side Bead Seater – Ergonomic nozzle injects high-speed air blasts into the tire, raising the bead to seal the tire to the rim.
- On-Floor Bead Breaker with powered handle gives an alternative option for use on soft sidewall and high aspect ratio tires.
- Wheel lift for easy mounting and dismounting of heavy tire and wheel assemblies and improved ergonomics.

Two Post and Four Post Lifts

10,000 lb. Two-Post Asymmetric Surface-Mounted Lift with Trio Arms and Round Rubber Adapters

- 10,000 lb. lifting capacity.
- Round rubber adapters with vertical adjustment, ideal for lifting vehicles of unibody construction.
- Asymmetric lift design, featuring factory-rotated columns to maximize door-opening clearance for passenger cars.
- TRIO arm design, has maximum reach and retraction to handle a broader range of vehicles.
- Rotary designed and built power units instead of using third party power units for universal applications.
- High-pressure, full-stroke cylinders in both columns.
- Multi-position column locks engage every 4 inches.
- Original "Double S" single-piece column design maximizes column strength.
- Slider bearings of Tivar 1000 polyethylene are self-lubricating and maintenance free.
- Arm restraints make positioning of arms easy. They engage when lift is raised and automatically disengage when lift is fully lowered.
- Overhead cables allow for a clear-floor design and ensure proper equalization of carriage.
- Overhead padded switch prevents damage to vehicle by raising it too high.

Also Available:

39-SPOA10

Asymmetric Lift with
Flip-Up Adapters

\$6,025.00

Retailer Price \$6,804.00

7,000 lb. Asymmetric Moveable Pad Lift

Asymmetric two-post lift with moveable, drive-over pads. Rotated column design provides maximum vehicle door-opening clearance when properly positioned on lift. Overhead equalization system. Electric/hydraulic operation. Includes four spacers for added clearance, polymer rubber contact surfaces and hinged approach ramps.

- Pad platforms reduces vehicle spotting time versus swing arms.
- Low drive-over clearance of 2-5/8".
- Pad platforms are adjustable for vehicles with different wheel bases.
- Third-party certified to industry standards.
- "Double S" column design provides maximum column durability.
- Rubber spacer blocks included when additional clearance is needed.
- Slider block bearings of Tivar 1000 polyethylene are self-lubricating and maintenance free.
- High-pressure cylinders in each column provide maximum lifting force.
- Arm restraints for easy arm positioning. Stay in place when lifting and disengage at floor.
- Overhead padded switch bar stops lifting when engaged.

**Cannot be used for Battery Electric
Vehicle High Voltage battery removal.**

Four Post Lift

Cars. SUVs. Trucks. Vans. They can all drive right onto the SM14 and be in the air in no time. The gold standard of four post lifts, the SM14 is engineered with single-piece, non-welded runways to provide maximum long-lasting strength. Its louvered ramps provide improved traction and come with a powder-coated Hammer Tone paint finish for improved durability. And most importantly, the SM14's adjustable latch bars ensure that the runways are level at any of the multiple locking positions.

- Cylinders under the runways protect them from corrosives and physical damage.
- Louvered ramps for improved traction and less floor gouging.
- Polymer rollers protect shop floors and allow for quieter operation.
- Powder-coated Hammer Tone paint finish for longer paint life.
- Adjustable latch bars keep runways level while in locking positions.
- 20" single-piece, non-welded runway with tracks for rolling jacks.
- ALI Gold Certified.

Collision Repair and Car Polisher

Vision2 X3 Electronic Measuring Package

Car-O-Liner Vision2 X3 is an electronic measuring software that guides you through the entire repair process. It provides automatic centering, measuring and documentation. Vision2 is easy to use. You are able to measure damaged vehicles 20% faster than previous Vision software. 3-D graphics with photos makes it easier to identify correct measuring points. Automatically updates Car-O-Data; the world's largest vehicle database with measurements for over 18,000 vehicles. The Vision2 X3 package includes the following components: Car-O-Tronic measuring slide, battery charger, measuring parts, Car-O-Data DVD, Vision2 X3 software and PC cabinet which holds the measuring slide when not in use. Measuring Bridge is not included. Select one of three lengths: 4 meter, 5 meter or 6 meter based on length of frame alignment rack.

Volvo Simplified Service (VSS) Tool Packages

VOLVO

RETAILER EQUIPMENT

The Volvo Retailer Equipment Program is Your One-Stop-Shop for VSS workshop needs!

Volvo Simplified Service is a new way of structuring your workshop. The foundation of VSS utilizes specific Lean principles, with a streamlined tool set and optimized work standards, all of which are carried out by two technicians per work bay – much like how a race car pit crew would operate.

For additional VSS information please contact Marcus Kingsbury marcus.kingsbury@volvocars.com

VOLVO
RETAILER EQUIPMENT

Digital Thermometer

This digital thermometer gives you full-feature capabilities in a case that is small enough to fit in your shirt pocket. A wide temperature range and highly accurate readings make it useful for a variety of applications.

- Accurate readings from -40° F to 390° F ($\pm 2^\circ$) and from -40° C to 200° C ($\pm 1^\circ$).
- Switch selects Celsius or Fahrenheit.
- Sampling time is just one second; HOLD button freezes display for accuracy.
- Easy-to-read display can be read even in direct sunlight.
- Durable case includes a cover to protect the probe.
- Uses one 1.5V battery; includes battery-saver mode.
- Min/Max display for reading temperature ranges.

Economy Leak Detector with loud audible alert.
\$270.00
Retailer Price \$309.00

42-LD5
Select Leak Detector with color graphic display, visual and audible alerts and LED inspection lights.
\$375.00
Retailer Price \$427.00

Tracer Gas Leak Detector Service Kit

The Robinair Tracer Gas service kit gives technicians the tools necessary to use tracer gas in place of refrigerant to find A/C system leaks. The LD9-TGKIT includes a hydrogen gas leak detector with sensor technology designed to detect a 5% hydrogen/95% nitrogen tracer gas mixture.

The detector's full color liquid crystal display (LCD) and sweep mode function convey messages, graphics, and prompts to help technicians locate the source of a leak and ensure that the leak detector is always at optimal performance. A patented 3 LED inspection light aids in locating and inspecting suspected leak sources.

Efficiency is Everything

Expert service equipment & systems planning will optimize the flow of people, equipment and vehicles—at no extra cost to you!

Four Proven Steps:

1 Equipment & Systems Needs Consultation Assessment

Key project document detailing contact information, target launch/phase dates, building requirements and recommended shop equipment to enhance fixed operations.

2 Detailed CAD Drawing

Includes detailed equipment and systems layout in service area as well as a lighting plan with photometric data.

3 Comprehensive Specifications & Budget

Includes detailed specifications for all major equipment called out in the Needs Assessment. Also includes a preliminary equipment and systems budget.

4 Project Coordination & Support

Single point of contact for service equipment and installation.

Most architects and contractors don't understand the needs of a service facility—we do!

Equipment and Systems Planning team members know service areas need to be set up to provide an optimal flow of people, equipment and vehicles into and out of the area. Because of our close partnership with the OEM, we know the Volvo-approved equipment – where to place it for the best usage and work flow throughout the shop and how to get it installed.

Our experts will ensure your facility:

- ▶ Accommodates Future Vehicles
- ▶ Provides Layout Efficiency
- ▶ Maximizes Shop Throughput
- ▶ Meets OEM Design Criteria

Visualize Your Service Department in 3D!

- ▶ Explore your shop design in beautiful real-time 3D prior to construction. Take a walk in the repair shop and see exactly how it will look in real life (via online web conference).
- ▶ Verify equipment color(s) suit your needs prior to purchase.
- ▶ Validate all selected equipment will fit and function properly within the Service Area without interference with the building infrastructure/mechanical systems.
- ▶ Realistic images allow comparison of key product selections, in-ground versus above ground lifts/exhaust systems, tool boxes and workbenches.
